BETHEL, MAINE, THURSDAY, OCTOBER 14, 1920.

Single Copies, 4 Cents—\$1.50 PER YEAR IN ADVANCE

ALBANY BOY SHOT

Medical Examiner Dr. Herman L. Bartlett of Norway was called to Albany Friday in the case of John H. Allen, who was killed by the accidental discharge of a gun.

It seems that young Allen, who was fourteen years of age, came home from school Thursday afternoon and took his gun and went into the woods hunting. As he did not return for supper his father became anxious and, in company of several other men, went out searching for him. Not finding him they returned home and sent word to the neighbors, who turned out with lanterns. They found him well along into the night on the mountain side, dead.

The lad wore moosehorns, and in climbing evidently slipped. It is thought he was carrying the gun over his shoulder. The shot entered the side, passed through the heart and out of the back. Powder stains on his clothing proved he was shot with his own gun at close range.

The lad was the youngest of a family of five children, four sons and one daughter, belonging to Mr. and Mrs. Howard A. Allen. He was a general favorite with his schoolmates.

Dr. Bartlett pronounced his death due to the accidental discharge of the gun. —Oxford Democrat.

MRS. ELISHA C. SLOAN

Mrs. Elisha C. Sloan passed on to a higher life Oct. 7, 1920. She was born in England in 1840. Over fifty years ago she married Mr. Sloan who still survives her. To them five children were born, three sons and two daughters, all of whom survive her.

A greater part of the last few years of her life have been spent in Bethel at the home of her daughter, Mrs. R. J. Sawyer.

The funeral was held Saturday afternoon at the home. Rev. Mr. Little officiated. Interment was at Riverside Cemetery.

CHURCH ACTIVITIES

UNIVERSALIST CHURCH
Morning service at 10.45. Sunday School at 12. Evening meeting of the Y. P. C. U. at 7 o'clock.

METHODIST CHURCH
Sunday morning service at 10.45. Sunday School at 12. Evening meeting at 7 o'clock.

The Ladies' Aid will hold their fall and harvest supper Thursday, Oct. 14, at this church.

RESOLUTIONS

Whereas, Our Heavenly Father has removed to a better land one of our oldest members, Brother Austin W. Powers,

Resolved, that our Lodge has lost a worthy member.

Resolved, that we extend to the family of our deceased Brother our heart-felt sympathy for their loss.

Resolved, that our Charter be draped for thirty days, that these resolutions be spread on our records and a copy be sent to the family of our Brother, and that they be published in the Oxford County Citizen.

D. G. LOVEJOY,
CHESTER A. CUMMINGS,
A. C. BRINCK,
Committee on Resolutions

EGG LAYING CONTEST TO BE HELD THIS WINTER

Reports from county agents indicate a strong interest among poultry men throughout the state in the third Maine winter egg laying contest, to be held under supervision of the University of Maine Agricultural Extension Service. The contest will begin Nov. 1, but the entries must be received by the county agents on or before Oct. 15.

The rules are the same as those that governed the two former contests, except that the number of birds in each contesting pen must be 25. They must be housed and fed according to the plan, at the farms of their owners, and the records subject to inspection by the county agents and the extension poultry specialist.

Monthly reports of egg production will be submitted for publication and comparative analysis.

COUNTY ORGANIZATION FOR THE BOY SCOUTS

The campaign to raise funds for the Oxford County Council of the Boy Scouts of America is progressing favorably, local committees being at work in all the towns. The Council will be formally organized and officers elected at a meeting to be held in the court house at South Paris, Oct. 15, at 7.30 P. M.

The Bethel committee consists of Messrs. H. C. Rowe, W. J. Upson, Ernest Walker and Fred B. Merrill.

BETHEL AND VICINITY

Mrs. Clough of Whitinsville, Mass., is visiting her sister, Mrs. Roscoe Andrews.

Judge A. B. Herrick, E. C. Park, Esq., and H. H. Hastings, Esq., attended the October term of Court at Paris, Tuesday.

Dr. and Mrs. I. H. Wight were in Milan, N. H., Sunday. Their daughter, Vivian, and Kenneth Wight accompanied them home.

Mrs. Aldana Brooks, who has been visiting her daughter, Mrs. W. B. Twaddle, and family, has returned to her home in Upton.

Mr. and Mrs. Fred Clark returned from Sharon, Pa., Friday night after spending two weeks with their son, Mr. Albert Clark, and wife.

Miss Gertrude Joy and niece, Miss Madeline Joy of South Berwick have been spending a few days with Miss Gertrude's sister, Mrs. D. Grover Brooks.

Mr. Murphy and Mr. Cooper were in town Monday to examine the Bethel National Bank, and Mr. Wellman and Mr. Keene examined the Bethel Savings Bank.

Miss Marion Everett, who has been training in the Homeopathic Hospital, Boston, has completed her course and returned to the home of her sister, Mrs. Philip S. Chapman, for an extended visit.

Rev. and Mrs. C. L. Wheaton left Monday for Lewiston where they attended the Augusta District Preachers' Meeting held at the Hammond Street church, Oct. 11 and 12. Among the out of State speakers were Rev. J. R. Boobe, D. D., of Boston University; Prof. M. A. Dawber; L. O. Hartman, D. D., and Bishop E. H. Hughes, of the Boston Area.

Rev. Mr. Little was at Lowell, Mass., Oct. 7, attending the annual reunion of the 33rd Massachusetts Regiment. There were eighteen members present, with friends and relatives of many of the old soldiers who have passed on to the higher home. This regiment went into the service in 1862, with 1200 men. There are about 60 living. Mr. Little was with the regiment through the three years of service.

(Additional Locals on Page 4)

DEATH OF FRED W. WORMELL
Fred W. Wormell, 64, a cattle and horse buyer, and well known all over Maine, died Sunday in his home, 54 Walton street. He was born in Dixfield lived a number of years in Clinton and came here 31 years ago, sending large numbers of horses and cattle to the Boston and Brighton markets annually. He was known far and wide in this State and was an acknowledged authority on stock of the sort in which he dealt. Mr. Wormell had been ill four months and was active in his business until ill health interfered. His wife, and three sons, Howard L., Robert L., and Earl, all of this city, survive him.

—Portland Press

MIDDLE INTERVALE ROAD

Mr. and Mrs. Merton Houle spent the week end with her parents, Mr. and Mrs. O. Stanley.

Miss Mollie Stanley was at home over Sunday.

Mrs. E. T. Russell and sister closed their country home and started for their city home in Brooklyn, N. Y., Tuesday.

Frank Abbott has closed his house here and moved to his home on Mill Hill.

L. T. Bartlett lost a valuable horse last week by being kicked by another horse in the next stall.

Miss Bessie Trask was unable to attend school Monday.

GROVER HILL

Mr. Robert P. Phipps from Stonoham, Mass., was the week end guest of Karl J. Stearns.

W. H. Hutchinson and family and Rachel Mayberry motored to Chester, Vt., where they visited Mr. and Mrs. J. A. Howard and family, Sunday.

E. C. Jackson from Shelburne, N. H., was in town, Monday, calling on friends.

Mr. John Barker and family from Rumford were recent guests of Mr. and Mrs. A. B. Graver.

Mrs. Annie M. Brown, who has been the guest of her brother, N. A. Stearns, and family for the past few weeks, returned to her home at Dixfield, Sunday.

Harry A. Lyon is building an addition to his new house.

Miss Ida M. Haselton was at home over Sunday.

COFFIN—McQUAIDE

Bethel people will be interested in the following report of a wedding which occurred in Waterville, Me., Oct. 6.

Married in Waterville, Maine, Oct. 6, by Rev. J. H. Little of Bethel, Everett Blackford Coffin of Brunswick, Me., and Marguerite Evelyn McQuaide of China, Maine.

The wedding was in the private residence of a friend. The double parlors were prettily decorated with evergreen, cut flowers and potted plants. The clergyman's station was in one of the bay windows. The bride party entered from two directions while the wedding march was being played. The marriage ceremony, including the double ring service, was administered.

The bride and groom, after receiving the congratulations of the friends, quietly and quickly departed by an unguarded door, to an auto in a nearby street, and were away on their wedding trip, which will include their journey to their future home in Lima, Ohio, 431 Franklin street, where they will be ready to greet their friends after Oct. 25th.

There were about fifty present at the service, including the father and mother of the bride, and the father, mother and three sisters of the bridegroom, and many friends and classmates of both bride and groom.

Miss McQuaide will be remembered as a successful teacher in Gould's Academy, her work being in the normal department. Since then she has been the principal of Erskine Academy at South China, Maine.

SPECIAL GAME INSPECTORS

The Department of Inland Fisheries and Game announces the appointment for the season of 1920 of the special inspectors, who are authorized to tag game which is being transported by non-residents in motor vehicles, which has become one of the most general means of carrying game from our State. The non-resident hunters' law specifically provides that no non-resident shall transport or have transported by any motor vehicle or other conveyance any wild animal or wild bird or any part thereof unless the same is tagged with the proper tag or tags detached from the hunting license, or unless said tag or tags bear the approval of an inland fish and game warden. If any wild bird or wild animal or part thereof is found in the possession of any person in violation of this section, the same may be confiscated by any officers authorized to enforce the inland fish and game laws. Non-resident hunters who are traveling by automobile should, therefore, take special pains to have their game tagged with the tags from their hunting license and with the additional tag of a special automobile inspector. It will be no need by the list of inspectors and their stations to be on duty on the main roads of travel, that the highways of the state will be well covered. Additional inspectors, however, will be appointed from time to time. Each inspector has been furnished with a large 16-page printed in red, bearing the following:

INSPECTION STATION
For Which Game Is Being Transported
In Motor Vehicles or Other Private Conveyances by
NON-RESIDENT HUNTERS
STOP HERE
And Identify and Have Your Game Tagged by STATE INSPECTOR
As Required by Law

The present list of inspectors for Oxford County follows: C. Lee Andrews, North Lovell; Ellis Blake, Denmark; Walter H. Barker, West Paris; Charles P. Gray, Fryeburg; J. L. Howard, Biddeford; Oxford Democrat.

EAST BETHEL

Columbus Day was observed in the schools here.

Mrs. Lucetta Bean has returned from Norway for a month's vacation at her home here.

Miss Susie Mitchell of Milan, N. H., has been dressmaking for Mrs. Carrie Bartlett.

Mrs. Rhoda McKay of South Paris has been a recent guest of her sister, Mrs. Dana Harrington.

Mrs. Octavia Bean has returned home from a two weeks' stay with Mrs. Emma Merrill.

Mrs. F. A. Hamlin of Berlin, N. H., is this week's guest of her aunt, Mrs. C. M. Kimball, and family.

Mrs. Carrie Bartlett will be over the week end guest of relatives at Milan and Berlin, N. H.

Mr. and Mrs. H. L. Holt and son, LeRoy, who have been spending the summer here, have returned home to Newport, Mass.

Mr. Sumner Peers of East Weymouth, Mass., is helping with the farm work for Mrs. Carrie Bartlett.

Mr. C. G. Kimball of Middle Intervale recently canvassed here for hosiery, extracts, etc.

GOULD'S ACADEMY

Senior and Junior declamation are due Friday, October 22.

Miss Cecelia McKenzie was a visitor at the Academy this week.

Miss Vivian Wight, '21, was a recent guest of relatives at Milan, N. H.

Miss Adelaide Ramsell, '21, spent the week end at Island Cottage, Locke's Mills.

Miss Pauline King, '21, motored through the Thirteen Mile Woods on Saturday.

Miss Doris Donnan, G. A., '20, now attending a Normal Art School in Boston, visited Gould's Monday.

"The Cottage" which is to be the temporary home of the Domestic Arts classes is receiving a new coat of paint this week.

Miss Thelma Kilgore of the Junior class was taken to McCarthy's hospital, Rumford, on Monday for an operation for appendicitis.

The Y. W. C. A. meeting was held Tuesday afternoon by Doris Keene. The topic was "Our Mistakes in Life." The names of sixteen girls were voted upon for membership.

The girls' basketball team has begun its season's practice. There is much good material in the school, and the prospects for a winning team are very bright.

Miss Annabel Snow of Portland, Miss Sybil Bennett of Magalloway and Guy Patterson of Bethel have recently registered at the Academy, bringing the number of pupils to 121.

On Saturday, Oct. 9, a group of sixteen boys and girls, chaperoned by Miss Seybold, enjoyed a hike to Farwell Mountain. A basket lunch was taken, and everyone contributed to the jollity of the crowd. All reported an excellent time.

SUNDAY RIVER

Mr. and Mrs. D. W. Kilgore were in this place Sunday.

C. B. Foster is at his summer home.

H. M. Kendall spent a few days in Gorham recently.

Ruth Kendall has gone to Nashua, where she has employment.

J. A. Nowlin and brother Alonzo are going to cut birch for Harry Bryant.

Fred and Will Cook are visiting their sister, Mrs. A. G. Eames.

Mrs. Lucretia Bartlett and Mrs. C. D. Bean called at Robt. Lee's recently.

R. M. Williamson is quite poorly at this writing.

Mr. Arnold Shatney and Mr. F. Hardy of Roxbury spent the week end at J. J. Spunney's.

Mr. and Mrs. Howard Bailey were in Mason on business Sunday.

Jesse Chapman was in this place recently.

Mr. and Mrs. Fisher and family of Lowell are at their summer home for two weeks vacation. Mr. Fisher has had a lot of repairing done on his building this summer including shingling, painting and laying new floors. Mr. Fisher's home was formerly the C. D. Bean farm.

Harold Spunney spent Sunday at home.

Wall Spunney is cutting wood for Harry Bryant.

Gene Thurlow caught a large bear in Ketchikan last Saturday.

W. L. Emery and children were in Lewiston Sunday.

NORTH NEWBY

Hastings Bean and family of South Paris were callers at W. B. Wight's, Saturday afternoon.

Ray Hanson and his mother, Mrs. Ella Hanson, are guests at C. C. Bennett's.

Mrs. J. H. Carter, Jr. is assisting with the work at her father's for a few days.

Fred Kilgore was a visitor in this place Sunday.

Fred Wight took Mr. and Mrs. C. C. Bennett to Errol, Sunday.

Miss Vada Hanson of Canton Point is at home for a few weeks.

Mr. and Mrs. W. D. Kilgore motored to Errol one day last week.

The funeral services of Mrs. Nora Bennett Thomas, of Rumford, formerly of this town were held at the church here Wednesday afternoon at two o'clock. There was a large gathering of relatives and friends. The floral tributes were many and beautiful.

Miss Carrie Wight, Miss Shirley Brooks, Arnold Eames and Miss Ella Hanson were at home from Bethel over Saturday and Sunday.

Find lost articles through the Citizen Want Column.

GRANGE NEWS

BEAR RIVER GRANGE
Bear River Grange met in regular session Saturday evening, Oct. 9, with a good attendance. One visitor was present.

Committees appointed: Dances, Roy Stearns; Refreshments, Bertha Bailey; Resolutions on the death of Sister Nora Bennett Thomas: Susan E. Wight, Maude Bailey, Nellie Holt.

A short literary program was given. The Roll Call resulted in many good suggestions for our Fair another year.

Next meeting the programme is to be a "Competitive Entertainment." The members are divided into three sections: the Red, White and Blue, with a captain for each section. Each captain presents his program, and the losing captains will furnish entertainment the following meeting. Full particulars will be given after the programmes.

An invitation is extended Bethel Grange to be with us next meeting.

LONE MT. GRANGE
Lone Mt. Grange held its first all day meeting Saturday. The routine business was followed by the Lecturer's program.

Grace Clark
Song, Selections from "Just Folks," by Edgar A. Guest

Reading, Minerva Swentt
"The Tramp," Evelyn Stevens
Talk with the boys, W. W. Perkins

"Kindness," Mrs. P. W. Leonard
"Castor Oil," Mrs. Evelyn Stevens
"Canning Time," Nina Clark
Reading, Wm. Poor
Reading, W. W. Perkins

BETHEL GRANGE
Bethel Grange met for its regular meeting Sept. 7. Supper was served by the ladies at 6.15. The Worthy Master called to order at about 8 o'clock. Opened in form, minutes of last meeting read and approved. The Master appointed the following committee for the Pomona: Dinner Com., Mrs. Mason, Mrs. Lyon, Mrs. Hastings; Receiving Com., Mr. and Mrs. Bartlett, Zenas Merrill, Mrs. Godwin. The third and fourth degrees were conferred on three candidates. Two applications received for membership. Literary program consisted of an "Old Fashioned Lyceum" in charge of the secretary.

Next regular meeting Oct. 21.

Pomona will meet with Bethel Grange on Tuesday, Oct. 26.

PLEASANT VALLEY GRANGE
Pleasant Valley Grange held its regular meeting on Tuesday, Oct. 12. About forty members were present. Very little new business came before the meeting. The literary program consisted of several readings but chiefly of an impromptu discussion of "The League of Nations." The statement of the Grange seemed to be fairly and evenly divided. Many of the members remained after the meeting to talk over an entertainment which the Grange will hold in the very near future the proceeds to go to the Grange Educational Fund.

NORTH WATERFORD

There is to be a dance at I. O. O. F. Hall, Saturday night. Ice cream will be served.

Mr. and Mrs. W. H. Kilgore of Andover have been guests of relatives here.

Charles York is in poor health and had to leave the spool mill for a time.

Mrs. Leslie Hobson is visited by her parents, Mr. and Mrs. Jesse Quint, of So. Hiram.

Mrs. Ella Charles' house looks fine with its new coat of paint put on by Albert Brown.

John Evans of Waterford and Chas. Stearns of Norway have been shingling Harry Brown's house.

Mr. and Mrs. Will Card and four children from Norway moved here Tuesday. He is at work for Harry Brown.

Mrs. Evelyn Green was a guest of her schoolmate Annie Hazelton, Wednesday of last week, and a very pleasant day for both. She was a guest of her sister, Mrs. J. W. Dresser, a few days, also of her brother, Wm. Fiske. She and her son, Horace, went to Paris, Tuesday, where they are to open a boarding house.

Gardner McAllister of Wilkinsville, Pa., is visiting his sister at Lovell. He has not been here for 31 years. He stayed with his brother, Duane, Friday night, and they went to Lovell, Saturday.

WANT COLUMN

Twenty-five words or less, one week, 25 cents; second week, 15 cents; each additional week, 10 cents.

Each word more than 25: One week, 1 cent and each additional week, 1/2 cent.

SHOES AND RUBBERS

One of the largest stocks of boots, shoes and rubbers west of Portland.

THURSDAY, OCTOBER 14, 1920.

NORWAY

Mr. and Mrs. Fred H. Swan held a reception Wednesday evening at the home of Mrs. Swan's parents, Mr. and Mrs. Charles D. Morse, at Swift's Corner.

The Oxford Conference of Congregational churches was held in Oxford last Thursday. Those attending from Norway were: Rev. M. O. Baltzer, Mr. and Mrs. Charles Chick, Eugene N. Swett, Mrs. Percy H. Nevers, Mrs. Sadie Lapham and Mrs. Gertrude Barker.

Mrs. Alice Danforth has sold her house on Deering street, which was formerly the Faxon stand, to Dr. Arthur W. Easton, who will occupy the down stairs part and Mrs. Danforth will live upstairs.

Miss Irene Locke has commenced work at the V. Akers studio for the winter.

O'Neill Mills is working for John Wood at Norway Lake.

Mr. and Mrs. Charles P. Inslee have closed Lakeside Inn for the summer and returned to their home in Brooklyn, N. Y.

Miss Minnie Upton of Boston is a guest of her brother and wife, Mr. and Mrs. Olin B. Upton, at North Norway. Miss Marion Haskell has returned to Boston to resume her studies on the violin under Prof. Winterhitz.

A large delegation from Pennecook Lodge, K. of P., attended the District Convention of the 16th District at South Waterford, Friday night, with Valley Spring Lodge. The local lodge worked the third rank.

A picture of Louis Onocardo of Marcellus, France, is on exhibition at the Lee M. Smith store. This boy was supported a year by the local Chapter, D. A. H., and interesting letters from him were read at the meeting of the Chapter last week.

A regulation mail box has been placed near the post office entrance which will accommodate patrons who do not wish to walk the whole length of the office. Collections will be made at regular hours.

Aldon C. Barker, the new superintendent of the Oxford Light Company, has bought one of the houses on Deal street of the Norway Home Building Association and will move his family from Mechanic Falls as soon as the house is completed.

Poster Jackson has bought a lot of land below the Whitman stand on Lawrence Main street at the junction of the

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Catarrh of the Eustachian Tube not cured by our Great Catarrh Cure, Send for circular, Free.

Sold by Druggists. J. C. CHENEY, & CO., Toledo, Ohio.

Take Stein's Family Pills for constipation.

two roads to Oxford, known as the

"Heater piece" of Miss Deborah Rowe.

Announcement has been received in town of the birth of a son to Mr. and Mrs. Harry Box of Biddeford. They were former residents of Norway.

Congratulations are being extended Mr. and Mrs. Lester Cowan on the birth of a son, Oct. 4, at Portland. Both Mr. and Mrs. Cowan were former residents of Norway.

Clayton Purlington has returned from Andover, Mass., and resumed his studies at Norway High School.

Mrs. H. Herbert Foss of Melrose Highlands, Mass., was a guest last week of her cousin, Mrs. Martina Richardson.

Mr. and Mrs. Albert Scribner have moved into Edward Berry's rent on Maple street.

Mrs. Howard Winchester and son, Marshall, of Manchester, Mass., and Edward Brown of Salem, Mass., have been spending a few days at the Drake cottage at the lake. Mrs. Winchester also visited her mother, Mrs. Clara A. Hayden.

Mrs. Agnes Currier has moved to her home on Danforth street, recently purchased of Pernald Sawyer of Otisfield.

Mr. and Mrs. Charles Wentzel, who have occupied the house for some time, have moved to a rent in the Tubbs house opposite the Congregational church.

Ralph Tucker of Norway Lake is cutting pine for John C. Grover of North Waterford.

Miss Lucy Hall of Farmington has been visiting at David Flood's, Norway Lake.

Mrs. Florence Anderson and son, John Anderson, will close their house on Pike's Hill this winter and have rented Miss Helen Noyce's house.

Harry Cole, demonstrator for the Central Maine Power Company, who has been in New York for two weeks, returned to Norway, Friday night.

Napoleon Roy is working on Richardson's delivery team while Ralph Richardson is having a few days' vacation.

W. T. Smith, the jeweler, has engaged the Hatch rent formerly occupied by Samuel Record's family and will move his family from Mechanic Falls.

Herman Lewis is having a two weeks' vacation from the J. N. Tubbs store, and Jesse P. Edwards is substituting in his place.

Philip Braden is having a two weeks' vacation from the Brooks store. Mrs. Charles E. Johnson of Paris mouth, N. H., is a guest of her brother, Dr. Fred E. Drake, and family.

A Mrs. Edward L. Burnell is spending several days in Bangor, the guest of

Mr. and Mrs. True C. Morrill.

Mr. and Mrs. Harry Henderson have moved their household goods from the Arthur Harriman house to Auburn, where they expect employment in the shoe factory.

Mr. and Mrs. Albion L. Buck are to occupy the rent in Mrs. Gertrude D. Barker's house when Dr. E. Easton vacates. Mr. and Mrs. Buck have been passing the summer at the Sampson cottage on Pike's Hill.

Miss Clara J. Kerr of South Paris, is working at the Fletcher candy store while Mrs. Fletcher is having her annual vacation.

Fairfield Lewis and Mark Pike, who have occupied a rent in the Clark house on Tucker street, recently bought by Fred Swan, have moved to a house on Gary street, South Paris.

WIREWORMS, WHITE GRUBS

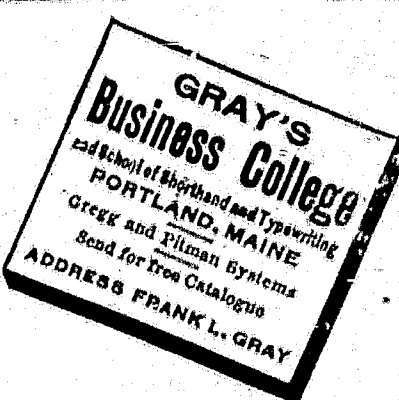

Fall Plowing, Birds, and Swine an Excellent Combination for Control

Each season the Maine Agricultural Experiment Station has numerous letters each with a tale of woe as to the damage wrought by wireworms or white grubs. These pests live two or three years in the ground before they emerge as mature insects. During these years they feed on the roots of growing plants and on seeds that may be planted. During this underground stage of their existence it is well nigh impossible and is entirely impracticable, to rid the land from them by poison of any kind or form.

Turning swine into land infested with the white grubs is an easy way of destroying thousands of these pests. A three year seeded piece owned by the writer is now being worked by swine who are breaking through the sod and stirring the soil to a depth of three to five inches in their search for white grubs, cutworms, and numerous other insects; for not only these insects which spend their life feeding underground are taken but also those which, having spent their larval stages feeding above ground, have entered the soil to pupate.

In freshly plowed lands the natural enemies of insect life are busy with these pests. Late fall plowing is even better than summer plowing for insect control. As the cold weather comes on the larvae of insects as well as the mature insects themselves become sluggish and crawl into the ground or into rubbish to hibernate.

When these are turned up by the plow after they have become too sluggish to again work into the ground they are the easy prey to their natural enemies. The tiny moles and shrews which are sometimes troublesome in lawns are real friends in the field. For they compensate for the underground burrows by the large numbers of wire worms, which constitute a very important part of their dietary, that they destroy. Poultry running over the plowed fields will pick up a large number of insects and make a profitable return from otherwise destructive occupants of the land. The skunk while not a pleasant house neighbor is a great hunter for insects. The large number of insects eaten by crows and grackles affords a plea for them

although in the spring they are such nuisances to sown crops and germinating corn. Other birds will also assist in destroying the exposed insects by eating them. And in this connection it is to be remembered that the cat is perhaps the greatest enemy the birds have. With cats about the place birds will not nest or if they do the cats will catch and kill their young. And with a decrease in the number of birds there is a direct increase of insect enemies and troubles. The more cats the less birds and the more insects. The less cats the more birds and the less insects. Which do you prefer? Cats and insects? Or birds?

Plow plowing always helps our animal friends by breaking the sod and also has an added value in destroying the wireworm adults. Wire worms "change over" into click beetles. These construct little earthen cells in which the changing takes place and the soft beetle remains in this cell all winter. If the cell is broken by plowing, the beetle is killed and will lay no eggs the coming spring in adjoining mowing land. Besides the many ground inhabiting insects destroyed by late fall plowing their egg masses are frequently broken and turned up to the weather and great numbers such as grasshopper egg packets are entirely prevented from hatching.

To keep injurious insects at a minimum protect loads, birds, moles, shrews and let hens and swine run on idle land. Grass lands afford the places of shelter for wireworms, white grubs and other insects of similar habits. Complete eradication of wireworm is impossible. But their numbers will be reduced to a minimum by proper crop rotation. In case of sod land known to be infested, late fall plowing and growing for the first two years from sod the more resistant crops, an legumes and small grains, will materially reduce the losses from wireworms.

THE HOME CIRCLE

Pleasant Reveries—A Column Dedicated to Tired Mothers as they join the Home Circle at Evening Tide

MOTHER-WISDOM

Forward with the Training of Practical Health Habits.

Why should the elementary schools teach children the laws of health, that study which goes by the name of hygiene? The purpose is that they may live in a way which will make them healthy.

This seems like a very simple answer but when one watches the way in which hygiene is often taught to little children, one sees that the reason for the teaching is often entirely forgotten. Tots are made to repeat sentences out of books which they can not possibly understand, statements about the way the body does its work and why germs are a danger and yet in the meantime, they may drink coffee every morning and come to school with dirty nails and unbrushed teeth.

This kind of instruction puts the cart before the horse.

Children younger than eleven years old are not at all interested in reasons. On the other hand these are the golden years of teaching them habits. All lessons then given should be of the kind on which they can act, put into practice. Never again will they learn habits so easily, thoroughly and permanently. It is age when they must be shown what to do not why.

The first lesson in hygiene must be a clean schoolhouse. No lesson regarding germs will have the effect on character which a room kept clean all the time, will have. The teacher should be spotless herself, both as to person and clothing. In this way there will take root in the children a standard of cleanliness.

Slowly and kindly the teacher should start a personal inspection two or three times a week of all her children. Hands, nails, hair, head, neck, ears should be looked at, not to criticize those who are dirty so much as to praise those who are clean.

Soon a pride will develop and clean water, individual soap, individual wash cloths and individual towels can be supplied for those who are up to the standard. This inspection may be made almost like a game and should be kept thoroughly good-natured so as not to hurt the pride of the pupils or of their families. A badge, such as a piece of brightly colored ribbon, may be given as a prize each week to the class having the best record for cleanliness.

By tactful questions the teacher can find out what foods the children eat. When she is supplied with this knowledge she can draw some day on the blackboard a picture of a sheep and another of a goat. Under the sheep she may write down the foods which are good for children and under the goat those which are harmful. This will give a note of merit to the instruction which will not be there if she merely writes, "nourishing," "not nourishing." The children will laugh when they are asked if pickles are sheep or goats—and laughter of this kind is excellent, even in a schoolroom.

This will lead toward useful instruction on the choice of food and the value of chewing. Wholesome combinations of food can be written on the blackboard for the children to copy and take home. In their turn the children can bring a list of the foods they have eaten for the past week, the child who has eaten most wisely receiving a brass button on a fine bow of ribbon. In these lessons the vitamins, proteins, carbohydrates and so forth should not appear. They would take all the fun out of it for any child under twelve. At the elementary school age a child should be taught what to do but not the science behind it.

Nothing is a matter of importance and it is difficult to deal with in communities where some of the children are

child's nerves

During childhood years the nerves are delicate and easily disturbed. Sleeplessness, restlessness, and other nervous attacks often indicate worms. Worms are a common disorder with children and weaken the nervous system if not attended to promptly.

Keep a bottle of "L.F." Atwood's Medicine ready at all times. A good dose taken at the first sign of any such trouble, will quickly establish a normal, healthy state, improve the digestion, and purify the blood. General health will be improved and many serious attacks warded off by small doses, taken regularly.

You are taking no risk in using this well-known household remedy, which has helped the digestion and health of both children and adults for over 60 years. You probably have many neighbors who have relied on it all their lives. A large bottle, containing 60 doses for 50c. Get one today from your dealer. "L.F." Medicine Co., Portland, Maine.

1¢ A DOSE

in poor circumstances. However the investigation of these cases very often shows that neglect and ignorance, not poverty, are the causes of poor clothing.

When this is so, the importance of clean laundering and neat mending should be spoken of freely. Other matters of importance are well shaped shoes of the correct size, dresses which are hung properly so that they do not pull on the tips of the shoulders, twisting the muscles of the back into deformities, coats, shirts and shirtwaists with collars which are not so high that they run the neck forward and produce "pigeon-chest"—as a hollow chest with forward thrust shoulders is called, and suspenders which do not cut in at the hollow of the shoulders in front, producing wing shoulder blades, by which is meant a protrusion and lump on each side of the shoulder at the back at the base of the arms.

Ventilating the schoolroom is a good practical way of showing that fresh air is necessary to health. It will lead naturally to the subject of supplying home, too, with constant fresh air and of sleeping with open windows.

When the necessity of fresh air during sleep is mentioned, the amount of sleep required by children will naturally come up for discussion and the matter of clean, well-aired night clothes, well-aired and neatly made beds and the personal toilet.

By the time children are eleven or twelve years, old practical lessons in domestic science should begin, including the boys. The care of foods, water and milk, sanitary ways of cleaning and the care of clothes may all be taught by "doing." When there is no second room in the schoolhouse where such work can be performed, mothers are often willing to take turns in allowing the demonstrations to be held in their kitchens.

Very little scientific knowledge of hygiene and physiology is necessary to most people. The laws according to which bacteria develop, how the body does its work and how ventilation is accomplished are of interest only to special kinds of minds and may be saved for special and advanced kinds of education. To know and to follow the rules of health, however is necessary to the well being of every one.

Away with textbooks, then, and forward with talks, inspections, contests and practice in teaching our children hygiene!

LIQUID AIR FOR COMMERCIAL USE

Few people who have seen "Liquid Air" demonstrated for exhibition purposes, know that it is manufactured in fairly large quantities for commercial use at a retail value of about five dollars a gallon. It is made in the basement of the building occupied by the research

CANTON

Foreman Rebekah Lodge observed Children's Night, Tuesday evening at the Opera House, and a good number of children were present and enjoyed games, etc. Ice cream and cake were served in the banquet hall.

Miss Mary N. Richardson returned this week to her studio in Boston for the winter.

The Seaside Club met with Miss Ethel W. Russell, Tuesday afternoon.

Rev. Eleanor Forbes has been a guest for the past week of Mrs. Chas. F. Oldham.

The Ladies' Aid met Thursday at G. A. R. Hall for work on comforters.

Mrs. Lona Evans of Lewiston has been a guest of her sister, Mrs. Geo. Rose, and family.

Mrs. Maurice J. Howes of Cumberland Mills has been visiting her sister, Mrs. Arthur L. Tirrell, and family of Pleasant street.

Mr. and Mrs. Clyde Bicknell and children of Sanford have been guests of relatives in town.

Mrs. W. E. Marston is confined to her bed by illness. Her sister, Mrs. Helen A. Eastman, is with her.

George Rose is enjoying strawberries from his garden.

Mrs. Mary E. French and daughter, Mrs. Jennie F. Hollis, have been on an auto trip to Newport and Bangor.

Mrs. A. W. Ellis has returned home from Rockfield.

Moving pictures will be given on Saturday nights only until further notice.

G. C. Russell has been a guest of C. F. Oldham. Mr. and Mrs. Russell are moving from Hallowell to Livermore Falls.

Mrs. George Spaulding, who has been very ill, is improving.

At the meeting of Whitney Lodge, F. & A. M., Thursday evening, the Fellow Craft degree was conferred on two candidates. The officers were also installed, the installing officer being the W. M. Arthur L. Tirrell, assisted by Geo. Rose as marshal.

The Universalist Circle met at the vestry Thursday for work. The next meeting will be at the vestry and the members of the Canton Point Ladies' Circle will be guests.

Mrs. C. F. Oldham spent Thursday at Livermore Falls, a guest of her sister-in-law, Mrs. Lucy Mason.

Chas. W. Walker has been attending the Brockton fair with his fine herd of cattle.

Hon. Otis Hayford, formerly of Canton is in the hospital, where he had cataracts removed from his eyes. He is recovering nicely, the operation being successful.

Mrs. Clara Walts has returned from an extended visit with Mrs. Charles Williams and family of Washington, D. C.

Rev. and Mrs. F. M. Lamb went to Salem, Mass., this week to attend the 50th anniversary of the Calvinist Baptist church at that place. Mr. Lamb was pastor of this church from 1898 to 1905, and the new church was built during his pastorate.

Rev. E. E. Davidson of Newton, Mass., will commence evangelistic services at the United Baptist church on Sunday evening, Oct. 17. The meetings will continue for two weeks.

Mrs. Ernest L. Goding, who has been

Laboratory of the Schenectady plant of the General Electric Company, in quantities averaging about 20 quarts a day. Air is pumped from the interior of the building in a container where it is forced through a coiled potash. This partially absorbs the moisture from the air. It next goes through a four cylinder compressor, in the first cylinder it is compressed under a sixty-pound pressure; in the second the pressure is three hundred pounds; in the third, nine hundred pounds; and in the fourth and last, three thousand pounds. The compressed air has now become very hot, reaching a temperature of 220 degrees, F. above zero. It is then water-cooled to about 72 degrees, and forced through a tank containing caustic potash and calcium chloride, which removes the remaining moisture. Next it is led in a tank, the air running through small copper coils surrounded by chopped ice, much the same as in a drinking water cooler. The final step is now reached when the air is sent into the liquidifier, where it is reduced to a temperature of 320 degrees below zero. It is the extreme cold which makes the liquid. From the liquidifier it is poured into thermos bottles ready for use. In referring to low temperatures it is interesting to note that grain alcohol freezes at perhaps the lowest temperature of any liquid, 237 degrees below zero, and gasoline at 220 degrees. Mercury freezes at about 39 degrees below zero.

Liquid air is used by the General Electric Company as the final step in creating as near as possible a vacuum in X-ray and incandescent lamp globes. After all the air possible has been pumped from the globes the out take is immersed in liquid air, while electricity is sent through the wires in the globes. The electricity heats the gases or particles of air still in the globes. The cold out take vessel surrounded by liquid air attracts them from the globes. After this process continues for a short time, the globes are sealed and are ready for use.

PULLETS SHOULD BE HOUSED NOW

Upon the care and development of the pullets will depend, to a large extent, their winter egg production, says O. M. Wilbur, Poultry specialist of the University of Maine extension service.

Pullets should be housed in their winter quarters about one month before they are expected to lay, and should be developed enough so that they may be housed not later than the last of October. Late hatched pullets, and those that are under size, poorly matured, rangy, lacking in vitality or deformed should be culled out now and marketed.

If left in the flock it is this class of birds that will be culled out as poor producers next summer. Only vigorous, strong, well developed pullets should go into the laying houses.

When the birds are put into the laying houses range conditions should be duplicated as nearly as possible. Feed plenty of green feed and keep dry mash before them all the time. Feed the scratch grain in the litter morning and afternoon and keep the birds active. Provide shell, grit and charcoal. When properly cared for pullets will develop faster in the houses at this time of year than they will in the ranges. Cull those small, inferior pullets.

It has been found that early maturity in the male bird is correlated with high egg production. The first thing therefore in selecting the breeding male is to choose one that is early maturing, that is, one that grows more rapidly than the rest of the flock and matures sexually earlier than the others. Choose a bird that is vigorous, as shown by a broad, well built body, with a horizontal back and one that stands squarely on his feet with his legs well apart. A bird with a narrow body, long legs and neck and that stands with the hock joints closely together shows poor vitality and should never be used as a breeder, even though he may attain a large size. A vigorous male bird will have a short, broad and deep head, with a good sized comb and wattles for the breed and a bright rather prominent eye. He should be active and his presence should be known by a prominent crow.

He should possess a long, straight breastbone with a full breast and a deep capacity to the body as shown by the distance between the pelvic bones and the end of the keel.

SELF-CLEANING LIGHTING FIXTURE

A self-cleaning lighting fixture cleans itself every time the light is switched on or off. The fixture consists of a reflector, a pull switch, a cord and a cleaning device made of two wiping blades. Every time the cord is pulled to operate the switch, it simultaneously brings the wiping blades into action. Each blade makes a complete revolution, one against the reflecting surface of the reflector and the other against the lamp bulb. In this way the dirt is swept off of both lamp and reflector. The fixture is made to take 300 watt to 500 watt lamps, and is sent out completely wired and assembled so that it may be readily erected on existing outlets.

At the home of her parents, Mr. and Mrs. Demeritt of West Peru for the past two months, is able to return home.

Mrs. Gertrude Barron has been visiting in Fayette.

Mrs. A. Herbert Stevens is teaching school at Canton Point, holding but one session a day.

Mr. and Mrs. John Briggs have been guests of their daughter, Mrs. Alton Banks, of Brunswick.

Mr. and Mrs. Clyde Burgess of Dixfield have been guests of Mr. and Mrs. George Rose, and family.

Mrs. John P. Swasey has submitted to an operation upon her left eye at the Eye and Ear Infirmary, Portland, and is getting along nicely.

Clyde Bicknell of Sanford has sold his residence on Lake street to George Rose.

Mrs. Ezra Chamberlin and daughter, Mildred, were visitors in Lewiston, Saturday.

A "spoon social" was held at the village schoolhouse, Friday evening and a merry time enjoyed.

Frank Chadbourne has purchased the stand on High street occupied by Mr. and Mrs. W. H. Robinson and family.

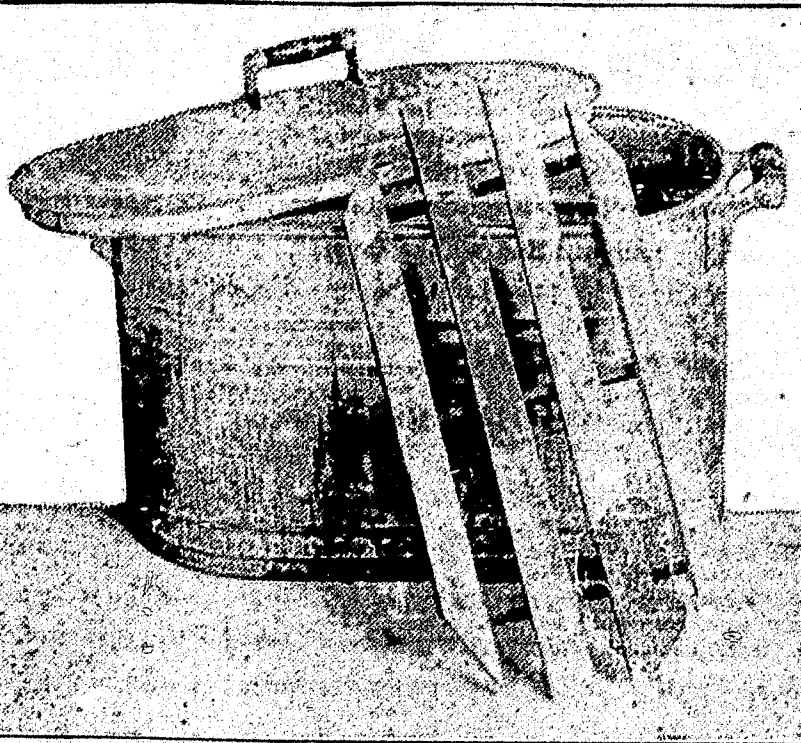

A union meeting was held at the Universalist church Sunday evening, the sermon being delivered by Rev. F. M. Lamb. Music was furnished by the Canton Point choir.

Mrs. Anna H. Bailey has returned home from Auburn, where she has been a guest of Mrs. Fred Rowe and family.

A family gathering was held at the home of Mr. and Mrs. W. B. Ingersoll of Monmouth, Sunday. The guests included Mrs. Mary P. Richardson, Miss Mary N. Richardson, Mr. and Mrs. W. A. Lucas, Mr. and Mrs. O. M. Richardson and children, Frank and Ruth, Mrs. and Mrs. Charles E. Richardson, Mrs. Arthur L. Tirrell and children, Hartley and Winona of Canton and Mr. and Mrs. Arthur L. Newman of Auburn. A picnic dinner was enjoyed.

Mrs. Geo. H. Johnson and daughter, Ruth, who have been camping out at Oquossoc the past summer, have returned home. Miss Johnson is much improved in health.

TEACHER MAKES MONEY IN CANNING

Washboller Canner, a Typical Part of the Outfit Used by Washington Teacher in Her Successful Canning Enterprise.

Two boilers fitted with trays, two tubs, two wire baskets, two paring knives, a small dipper, a measuring cup, a kettle and a can sealer comprised the equipment that a young Washington school teacher used to can enough peaches to clear \$800 in two weeks last fall.

Use Inexpensive Equipment.

One of the things which the home demonstration agents sent out by the United States department of agriculture and the state colleges, teach is the use of inexpensive equipment where it is impossible or inadvisable to buy expensive utensils. In the Yakima valley, Washington, there is a high percentage of waste peaches in the orchards that supply the commercial canneries. It is impossible for them to use tree-ripened Albarin and Slappa peaches because they will not stand up well under the high pressure used in processing. A young school teacher, living in the vicinity of these orchards, and her aunt, decided, with the advice of the home-demonstration

agent of that county, to utilize these tree-ripened peaches.

\$800 in Two Weeks.

With a stove made of bricks and the above equipment in two weeks they made a profit of \$800. They found

Inexpensive Tray Used in Canning.

little sugar was necessary with the tree-ripened peaches. They also made 600 quarts of peach and pear conserve and 215 quarts of grape and apple jelly. Special recipes were worked out for the pear butter.

MAKING GRAPE JELLY FROM WASTE PRODUCT.

Experiments Show Pomace to Be Quite Satisfactory.

Outside of Sugar, Expense for Materials is Very Small—Drying Does Not Prevent Jellification—Full Instructions.

Jelly made from grape pomace is a new product of the grape-juice industry. Pomace consists of the skins, pulp and seeds left in the presses after the grapes are crushed for grape juice and has been heretofore almost entirely a waste product. The United States department of agriculture, with the co-operation of a large producer of grape juice in the state of New York, has completed experiments showing that jelly can be made from pomace with very little expense for materials except sugar. The presses, cooking kettles and other food-packing machinery required are already in most of the plants.

The price of grape jelly as now produced is about twice that of apple jelly. If the waste were utilized, jelly could probably be produced at about the same cost as from apples. Enough grape pomace is produced in New York and Michigan each year to make more than 20,000,000 eight-ounce glasses of jelly, it is estimated.

The method of making this jelly does not differ much from ordinary packing-house procedure. It consists in boiling the pomace with water for about 15 minutes, pressing, adjusting the acidity by the addition of tartaric acid, standardizing the juice by concentrating it to the required volume, adding certain quantities of sugar and concentrating to 222-223 degrees F. The jelly has a strong grape flavor and looks very much like the product from whole fresh grapes.

In commercial application of the method, it is suggested that the wet pomace be freed from moisture in rotary driers and placed in bags for winter use. Drying does not seem to impair the jellification qualities, and it preserves the product for working up in winter when the burden of the grape juice pressing season is over. This would result in keeping the machinery at work during a greater part of the year and distributing the overhead costs.

Under these conditions it will be profitable, also, to separate the seed and market it for its oil value. Under old methods, the operating and assembling charges were too great for the comparatively small amounts of seed produced, but, by using the pomace for jelly, a large part of the handling cost is removed from the grape seed charges. The oil content of grape seed is comparatively small and it should be recovered by solvent extraction rather than by pressing or expelling. The product is a very light-colored, palatable oil and suitable to all purposes for which table oils are used.

Jelly made from grape pomace should not be labeled "Grape Jelly." The label should plainly indicate the origin and should show the percentage of added tartaric acid.

IS FORM OF CONJUNCTIVITIS

In All Cases of Pink Eye It Is Important to Consult Some Good Doctor at Once.

(By U. S. Public Health Service.) Pink eye is an acute contagious inflammation of the membrane lining the eye ball and eye lids. In other words it is a form of conjunctivitis.

It begins with a slight itching of the eye. On the morning of the second day the margins of the lids are stuck together by a yellowish gray secretion. There is a burning sensation in the lids, but interference with vision is slight. Toward evening the discharge increases and the discomfort is more marked. The height of the disease is usually reached on the third or fourth day. If simple cleanliness is observed the disease usually runs its course in two or three weeks, but it may last for six months if no treatment is employed.

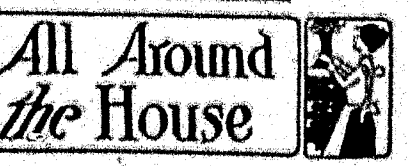

In all cases of pink eye it is important to consult a good doctor at once, for some forms of conjunctivitis, mistaken for simple "pink eye," are really highly dangerous and may lead to blindness. In all cases of "pink eye" or other forms of conjunctivitis care should be taken not to allow the discharge to get on towels, napkins or other articles which might be the means of transferring the disease to others. Scrupulous cleanliness is of the utmost importance. Eye drops or eye washes should not be used unless prescribed by a physician.

ECONOMIZE IN USING SUGAR

It is Concentrated Food and Therefore Should Be Eaten in Quite Moderate Quantities.

Sugar is a useful and valuable food. It must, however, be remembered that it is a concentrated food, and therefore should be eaten in moderate quantities. Further, like other concentrated foods, sugar seems best fitted for assimilation by the body when supplied with other materials which dilute it or give it the necessary bulk.

Persons of active habits and good digestion will add sugar to their food almost at pleasure without inconvenience, while those of sedentary life, of delicate digestion, or with a tendency to corpulence would do better to use sugar very moderately.

Salt makes an excellent hair tonic.

A potato ricer makes a fine strainer for apple sauce.

Furniture should always be washed before it is polished.

Toast your cheese sandwiches in the oven. They are delicious.

Pickled apples are quite as good a relish with meat as pickled peaches.

When you cream butter and sugar for a cake, a little cold water will make the creaming easier.

"Just a few minutes now, Peggy dear, and Daddy will be back home with a nice bottle of

KEMP'S BALSAM

for you. Then you can go to sleep and forget that horrid cold cough."

And as usual Mother is right—but why not save poor old Dad the night trip to the drug store next time by having an extra bottle of Kemp's Balsam in the house all ready for big and little coughs alike?

Get a bottle now. GUARANTEED. L. B. Kemp, N. Y.

THE New Wool Dresses

Beautiful in design, but practical. You know what it means to look at new styles and feel that at last "Here is a dress I can wear." We concentrated our efforts to secure just such garments. You will find all the favored materials and trimming ideas, the new plaited ideas and the straight line ideas with silk embroidery and beading.

Serge Dresses \$19.75, 22.45, 24.75, 27.45
Tricotine Dresses \$24.75, 27.45, 34.75

Beautiful Suits

Here are suits that express the fashion idea in every detail. The styles are youthful in appearance and exceedingly smart and attractive and then the materials—splendid all-wool fabrics such as you usually find in garments of higher cost.

The materials are Velours, Tricotine and fine Serges with beautiful figured silk lining, buttons and fancy stitching are used for trimmings. All have the three way collar. Prices are much more reasonable than last season.

Suits, \$29.75, 34.75, 37.45, 45.00, 49.50

The New Coats

In regard to the new Coats, we might describe each Coat in detail, but even then you would be unable to picture just how smart and good looking they are.

Coats for \$19.75, \$22.45, \$24.75, \$27.45, \$34.75, \$37.45, \$42.50.

Buy Wooltex Coats

Economy made easy. Yes, it's necessary to economize, but where's the woman who enjoys it? And yet how simple it is. This store has discovered a service in clothes that makes economy easy. You can come in here, select a Wooltex Coat and be certain of lasting style and enduring quality.

That's because Wooltex Tailor makes come in all wool fabrics only, because they are hand tailored, the styles are smart and up to the minute without being faddy.

Wooltex Coats, \$45.00, 49.75, 55.00, 62.50

When Jack Frost visits he will be with us for many months to come

Warm Blankets Become Necessary

Though we are having cool mornings, they will not compare in any way with the real cold nights that we are to have within a very few weeks.

OUR BLANKET DEPARTMENT is ready in every way, just the right qualities and weights. Plain white, grey or tan with fancy border. Fancy Plaids in pleasing, attractive color combinations.—Fine quality Wool Blankets, white with fancy border.

More than the usual amount of satisfaction in choosing your Blankets from these ample stocks

Brown, Buck & Co.

NORWAY, MAINE

LOOKER'S MILLS ROAD

Mr. and Mrs. Blaser, who have been spending the summer with their daughter, Mrs. Howard Gonthier of this place and Mrs. Joseph Mather of West Bethel, have returned to Massachusetts. Mrs. Blaser being much improved in health.

Mr. and Mrs. Fields of Cambridge, Mass., have been spending a few days at their beautiful place here, known as the Purple Farm.

Miss Hattie Blake returned home from Boston, Monday, where she has been visiting her brother and wife, Mr. Warren, also Mr. and Mrs. Archie Mow

and Mrs. Leslie Blake. Mrs. Blake came to Bethel with her to visit her parents, Mr. and Mrs. Will Gonthier, for a while.

Mr. Leonard Vanhauw was a visitor at Frank Harthorne's a few days recently. Mr. and Mrs. Charles Hoyt and Madam Hoyt, who have been spending a couple of weeks with relatives in town, have gone home to Massachusetts.

Mrs. Carl Brown and two little boys, Stanley and Donald, accompanied by Mrs. Brown's mother called on friends at Northwest Bethel, Friday P. M.

Mr. and Mrs. Harlan Bean and son, Warren, also Mr. and Mrs. Archie Mow

or of Auburn, Me., were guests of Fred Bean and wife, Saturday and Sunday.

Mrs. Belle Bennett and family, also Mr. and Mrs. Clarence Bennett spent Sunday evening at Beth Mason's.

Mrs. Howard Gonthier and son, Hoyt, have gone to Massachusetts for a few weeks' visit with relatives and friends.

John Mather of West Bethel was a guest of his aunt, Mrs. Howard Gonthier, Sunday.

Mr. Joseph Levesque is in Gorham, N. H., where he has employment in B. Bennett's barber shop.

Miss Wendell Godwin was the guest of Miss Clara Mason Friday night. They attended the dance at West Bethel and reported a very good time.

Olga Boothman was one of the party of G. A. students, who with some of their teachers went hiking on the Farwell Mountain range, Saturday, and enjoyed a picnic dinner at the old Farwell farm.

Miss Helen Clark of Bethel visited the South Bethel school one day last week. Miss Clark and the teacher, Miss Mason, were classmates at G. A., '19.

Mr. and Mrs. Frans R. Whitman of Clinton, Maine, were guests of Mr. Whitman's son, Mrs. Levi Bartlett, recently. They are enjoying an auto trip to Patterson, N. Y., by way of the White Mountains.

Additional locals on Page 13

BETHEL AND VICINITY

Mrs. Alforta Edwards of Portland was in town, Tuesday.

Mrs. P. C. Andrews of Gorham, N. H., was in town, Friday.

Mr. Francis Mills is clerking in the store of G. L. Thurston Co.

L. P. Morse of Hastings, Me., was in Bethel on business, Saturday.

Mrs. Walter Bartlett is with her mother, Mrs. W. D. Mills, at West Bethel.

Mrs. Joseph Muzzell and children are visiting at the home of Mr. Howard Colburn.

Miss Alice Twitchell is spending the week in Norway, the guest of Mrs. E. E. Wilt.

Mrs. Alton Richardson of Durham, N. H., is a guest of Mr. and Mrs. Harry Brown.

Rev. M. O. Baltzer of Norway will preach at the Congregational church, Sunday.

Miss Alice French went to Rumford, Monday, to visit friends, returning Tuesday.

Mr. and Mrs. P. S. Chapman and baby were Sunday guests of relatives in South Paris.

Mr. and Mrs. Elmer Allen and son, Stanley, visited at L. E. Allen's, West Bethel, Sunday.

Miss Florence Springer is enjoying a vacation from her duties at the Merrill Springer Co. mill.

Mr. Archie Verville returned from the hospital last week and is much improved in health.

Rev. C. L. Wheaton was called to Hunt's Corner, Saturday to attend the funeral of Tyler T. Cole.

Mr. and Mrs. Archie Verville spent the week end with her sister, Mrs. Richards, in Berlin, N. H.

Mrs. William Stanton of Norway has been a guest at H. H. Hastings' and N. E. Richardson's this week.

Miss Merriman and Mrs. Bryant of Freeport were recent guests of the Misses Catherine and Kathleen Grover.

Mr. and Mrs. Herman Robertson are being congratulated upon the birth of a daughter, Mary Frances, born Oct. 10.

Mr. and Mrs. Elmer Bean and daughter, who have been at Wentworth Location N. H. for some time, have returned home.

Miss Stella L. Cole, Miss Eva Howard, Messrs. Arthur Cole and Owen Cole of Bridgton were Sunday guests of the Misses Morse.

Mr. Elisha C. Sloan, who has been spending some time at the home of his daughter, Mrs. R. J. Sawyer, has returned to New York.

The annual meeting of the ladies of the Congregational church will be held with Mrs. W. O. Straw, Thursday afternoon at three o'clock.

Mr. and Mrs. Francis R. Miller and daughter, and Miss Mae Miller of Portland and friend of Simmons College were Sunday callers in town.

Those who are in attendance at court as jurors from Bethel are H. Irving French, grand jury, Wesley Wheeler and E. E. Bennett, traverse jury.

Mr. and Mrs. E. L. Cowan are receiving congratulations on the birth of a son Oct. 4. Mrs. Cowan will be remembered as Margaret Finney, formerly of Bethel.

RUMFORD

The funeral of Mrs. Nora Thomas was held last week. Mrs. Thomas died at her home on Waldo street after a short illness. Before her marriage she was Miss Nora Bennett of Newry, and had been married about a year.

Among the recent French weddings was that of Joseph Petro and Miss Marion Blanchette, Rev. Father Hovey officiating. Also that of Napoleon Mirand and Mary Arsenault Rev. Father Boivin officiating.

Mrs. Leon Fortier has leased the building formerly owned by Mr. Austin Towle, at the corner of Rumford avenue and York street, and will open a store. Mrs. Fortier has conducted a little business in used clothes and furniture at her home on Knox street.

Mrs. James MacGregor and two daughters, Ruth and Christine, of Franklin street, accompanied by Dr. and Mrs. J. S. Sturtevant of Dixfield, have left by auto for Champlain, N. Y. to visit Mrs. Oscar Breidenberg of that place. Mrs. Breidenberg was before her marriage Miss Blandine Sturtevant of Dixfield, daughter of Dr. and Mrs. Sturtevant.

Miss Marjory Latham of Somerset street, daughter of Mr. and Mrs. Fred J. Latham, who has been operated upon for appendicitis at a hospital in Providence, R. I., is recovering nicely, and has returned to Rumford, coming in the Latham touring car with her parents.

Mrs. George W. Pettengill is recovering from an operation at the McCarty Hospital.

Frank Vallancourt of Waldo street has moved onto a farm just below Dixfield which he has recently purchased. He has sold his house at 519 Waldo street to Joseph F. Arsenault.

Edna Merritt of Onussoos is attending the Parochial school and is staying with Mrs. Ayotte of Urquhart street.

Mr. and Mrs. Manley Blanchard are receiving congratulations upon the birth of a baby girl.

Miss Katie McNeil has left for Easton, Maine, to resume her teaching after spending the summer with her parents, Mr. and Mrs. Joseph P. McNeil, of Prospect avenue.

Burchard Russell of Hanover is delivering the mail in the Virginia district.

Mr. Webber of the Rumford Falls Power Company is to move into the house formerly occupied by Mr. and Mrs. Hardy in the Virginia district.

Mr. and Mrs. W. W. Hardy left this week for Boston, where they expect to make their future home.

Mrs. Jeff Thomas has entered the McCarty Hospital for treatment.

Winfield Lapham has bought out the W. W. Hardy paint shop, and will give up his shop in the Virginia district.

Mrs. Mary Goodridge is on a visit to friends in Boston and Lowell.

Frank Fish has moved from Harlow Hill into the Dunn Block.

Mrs. Henry Bean, who broke her wrist a few weeks ago, is getting along as well as could be expected.

J. D. Strongles has sold his restaurant on Congress street known as the Con-

gress Lunch, to John Milton of Portland, who took possession last week.

Miss Emily Myers, an employee of the Continental Paper Bag mill of Rumford, who attended the convention of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers at Ottawa, Canada, as a delegate from the Continental Local, was elected to the office of secretary of the convention.

An Oxford County Council of the Boy Scouts of America is being organized and an organization is to be started in Rumford. A committee of Rumford men have been appointed to help in starting the work here and to secure the small sum necessary for the local quota of the county budget.

The committee consists of Charles A. Mixer, P. E. McCarthy, J. Abbott Nile, Wm. A. Clough and Lewis M. Irish, treasurer.

The work is in progress in Norway, Dixfield, Locke's Mills, Mexico and Bethel. A survey of the county shows that there is opportunity for about thirty troops of Scouts. There are 250 boys in Rumford of Scout age, who can have the benefits of this program of training.

Mrs. Margaret Curtis, who has been bookkeeper for the Charles Levin Co. for some time past, has been transferred to the floor as saleslady, and Mrs. Vera Hargraves, who has been clerk at the Rumford National Bank, will take the position as bookkeeper. Mrs. Hargraves held this position a couple of years ago.

The general committee of arrangements for the Knights of Pythias Convention to be held in Municipal Hall on Thursday evening of this week is composed of Nathan D. Akers, chairman; A. J. Reed, John A. Hildley and John M. Withee of Mt. Allure Lodge; George Learned, George Grover and John Warren of Cabot Lodge; Elton L. Knight, S. J. Russell and D. K. Elliott of Oxford Bears; and S. J. Rawson, C. H. Davis and John Johnson of Walden Lodge.

The Merchants' Association of Rumford is to be reorganized on the 15th of this month, and will hereafter take in the merchants in every line in Rumford.

Arthur Gauthier, collector of Customs at Van Buren, with Mrs. Gauthier, have been recent guests of Mr. Gauthier's parents, Mr. and Mrs. Joseph A. Gauthier, of this town.

Mr. and Mrs. Harold McDonald are receiving congratulations upon the birth of a daughter.

Dr. William T. Rowe has purchased the house formerly owned by J. Thomas on Granite street, in Biddenville.

James H. Kerr is constructing a cement road from Main street to the Paris road in South Paris. The road is 25 feet wide. An average distance of 250 feet is made each day.

The infant son of Mr. and Mrs. Robert Austin has been named Robert, Jr.

Charles Dain of Livermore, for many years a resident of Rumford, has gone South to spend the winter months.

Mrs. Della Poole, formerly Della McPhee of this town, but now of Gardiner, is ill with pneumonia.

Plans are already on foot for the fair to be held by the Ladies' Aid of

the Baptist church which is to take place on Dec. 7th.

Mrs. Charles Stanhope of Franklin street will entertain her father for the winter months at her home on Franklin street.

The Jewish people of Rumford are interested in the building of a Synagogue for Rumford, and the sum of \$1,000 has already been subscribed for that purpose. The subscription list is now open, and it is thought that within a short time the necessary amount of money will be raised so that the construction of the synagogue can be commenced by next spring.

Fred Milton and Lawrence Parsons of Andover have bought out the Andover stage route from John Warren. This contract includes the carrying of the mail from Rumford to Andover.

As evidence of the prosperity of Rumford's industries, we note that the Oxford Paper Company has issued a call for the redemption of \$100,000 of its bonds. This company is also expending large sums for improvement of its plant.

Mr. and Mrs. Cliff Rolfe with Mr. Rolfe's father and mother, also Mr. and Mrs. Ralph Woodsum and their son, Ralph, with his fiancée enjoyed a fine motor trip through the White Mountains this past week, stopping at Littleton, N. H., thence through various points of interest and back home.

Archibald McDougal of Rumford has filed a petition in bankruptcy.

The funeral services for Mrs. Sarah Touchie were held last week from the home of her daughter, Mrs. Arthur Hunt, of York street. Burial was made in Farrington cemetery. Mrs. Touchie's death occurred at the home of her daughter after a long illness. Her age was 86 years. She leaves three daughters, Mrs. William Wakefield, Mrs. Quigley and Mrs. Arthur Blake, all of Rumford, and three sons living elsewhere.

The second meeting for the season of the Searchlight Club will be held this week Friday at the home of Mrs. H. S. Coke on Pine street. The subject is to be "Immigration and Assimilation" with papers by Mrs. E. W. Howe, Mrs. P. H. H. Booker and Mrs. R. J. Harris.

Tax Collector William Cyr reports that he has taken in \$2,110.00 of 1920 taxes between Sept. 1 and Oct. 6.

Stanley Blakes and family of Lincoln avenue have returned to town after having spent four months at their camp on the Moosehemeguntic Lake in the Rangeley region.

Mrs. Gonyea, who has been clerk in the store of the E. K. Day Company for several years, severed her connection with that firm on Saturday night last, and will go to Nashua, N. H., where she expects to make her future home.

Miss Laura McMennamin has accepted a position as clerk and bookkeeper in the office of James H. Kerr.

Mr. and Mrs. Carleton Dennis have taken the rest on Knox street formerly occupied by Nahum Moore and family. Mrs. Pearl Kimball will occupy the top floor of the rest for the winter months.

Mrs. Louise Hayes Baker and family

of Rumford Point have taken the Stephens apartment on Prospect avenue for the winter months.

Mr. and Mrs. John E. Stephens and family of Prospect avenue leave the first of November for the South, their destination being St. Petersburg, Fla. They will make this trip in their Franklin limousine, taking about two weeks on the way. They will remain south during the winter months.

Mr. and Mrs. Springer from the eastern part of the state, the parents of Mrs. Glendon Stevens, have moved into the upper rent of the Glendon Stephens house on Prospect avenue, and Mr. Springer will become associated with Mr. Glendon Stephens in the Stephens jewelry store during the absence of Mr. John E. Stephens in the south.

Miss Ella Creech of Boston is the guest of her sister, Mrs. E. C. Marriner. Miss Velma Dudley of Portland is visiting her aunt, Mrs. A. M. Fogg. A Christian Endeavor Society has recently been formed at the Rumford Baptist church.

O. J. Guay is in Montreal on business.

Edward Woods of the Virginia district, a graduate of Stephens High School, class of 1920, has recently been appointed assistant manual training teacher in the Rumford schools.

Miss Ethel Warhurst, Western Union Telegraph operator, left on Tuesday of this week for a vacation from her duties for a period of two weeks.

The school garden children of the Rumford public schools, under direction of Mr. Brown, the agricultural teacher, gave a very fine display of the products grown in their gardens during the past summer, in Municipal Hall on Friday evening last. Both teacher and pupils had a great deal to be proud of, the fine vegetables grown and the artistic display which was made of them.

On Columbus Day, the public schools of the town were closed, but otherwise, the holiday was not generally observed.

ANDOVER

Mr. and Mrs. George Ferrin, Ralph Ferrin and Mrs. Callahan of Boston were guests of Sidney Abbott and wife Friday and Saturday.

Mrs. Nellie Leslie from Atlanta, Ga., is the guest of her brother, Charles Ripley, and family.

Freeman Bedell from Boston is visiting his sister, Mrs. Y. A. Thurston. A party from Auburn are camping at C Pond.

Mrs. Edward Akers has been spending a few days with her son, N. D. Akers, and family at Rumford.

Mrs. George Learned is at Rumford caring for Mrs. Berl Hanson, who is ill. Dr. F. E. Leslie is receiving treatment at Hot Springs, Arkansas, for rheumatism.

The schools in town were not in session, Tuesday, Columbus Day.

Y. A. Thurston was at Richardson Lake, Saturday and Sunday.

Sidney Abbott was at South Paris, Wednesday.

Mrs. Charles Bartlett, Mrs. Abbie Peor, Mrs. Chas. Andrews, Mrs. Y. A. Thurston, Mrs. John Bailey, Hadie Bailey, Wm. Poor and E. M. Bailey, with Lewis Norton as chauffeur, attended the Oxford Association of Congregational churches at Oxford last Thursday.

There was a large company from the different lodges of Pythian Sisters that attended the district convention held at Andover, Wednesday evening, Oct. 6. A delicious supper was served.

Philip Learned, who has a position in Akron, Ohio, is spending the month with his people, George Learned and wife.

There was no service at the Congregational church Sunday morning.

George Orham is working in the spool mill.

Mrs. Dorothy Baker has been assisting in the work at the Homestead for several days.

Miss Abbie Carpenter, who has been quite ill, is improving.

Mrs. Elmer Clough and children from Bath are visiting her brother, Archer Poor, and family.

Clarence Hall and family were guests of W. N. Akers and family, Sunday.

The Y. P. E. C. E. met with Faye Dresser, Sunday evening.

John Warren has sold his stage business to Fred Milton and Lawrence Parsons. The contract for carrying the mail from Rumford to Andover goes in the transfer. Mr. Warren has taken a large contract for getting lumber this season.

Florence Akers was at her home Saturday and Sunday.

Mrs. John Hewey was in Rumford, Friday.

RUMFORD POINT

John Holman and wife, Roger Holman, wife and son and Mary Marble of Dixfield were in town, Sunday.

E. M. Knight went to Auburn, Sunday after a motor boat.

Alton Allen of Gorham, N. H., was in town, Saturday.

A. B. Cobb of Norway was in town, Sunday.

Susie Mitchell of Milan, N. H., is a guest at R. E. Knight's.

O. J. Brown of Dixfield was in town, Sunday.

Mrs. W. H. Barker broke her wrist Saturday, cranking a Ford.

READ THE ADVERTISEMENTS

JUST GOT OVER A COLD?

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what a Bethel man says:

F. M. Wood, 4 Park St., says: "My kidneys began to annoy me some years ago after I had strained my back lifting. After this my back ached pretty badly and I was in bad shape for a long time. When I took cold, my kidneys got congested and at times they acted irregularly. After Doan's Kidney Pills were recommended, I began to use them and they took hold of trouble quickly. I soon had relief from the backache and the action of my kidneys was corrected. Now, I use Doan's Kidney Pills as needed and am always benefited. I always keep the remedy on hand, getting my supply from Bosserman's Drug Store." (Statement given June 8, 1916.)

On September 9, 1920, Mr. Wood said: "During the past four years, Doan's Kidney Pills have done fine work whenever I have used them for any sign of kidney weakness. I think just as highly of Doan's today as when I first endorsed them."

STATE OF MAINE
To all persons interested in either of the Estates herein named:

At a Probate Court, held at Paris in and for the County of Oxford, on the third Tuesday of September, in the year of our Lord one thousand nine hundred and twenty. The following matters having been presented for the action thereupon hereinafter indicated, it is hereby ORDERED:

That notice thereof be given to all persons interested, by causing a copy of this order to be published three weeks successively in the Oxford County Citizen a newspaper published at Bethel, in said County, that they may appear at a Probate Court to be held at said Paris, on the third Tuesday of October, A. D. 1920, at 9 o'clock in the forenoon, and be heard thereon if they see cause.

Helen L. Powers late of Dixfield, deceased; will and petition for probate thereof presented by Ellery C. Park, the executor therein named.

Ida J. Arnold late of Peru, deceased; will and petition for probate thereof and the appointment of Willard S. Arnold, Joseph A. Arnold and Ada M. Demeritt as executors thereof to act without bond as expressed in said will presented by Willard S. Arnold, one of the executors therein named.

Henry B. Merrill late of Bethel, deceased; petition that T. K. Smith or some other suitable person be appointed as administrator presented by Georgian M. Smith, a cousin and heir.

Lucian W. Blanchard late of Rumford, deceased; final account presented for allowance by Claudia M. Blanchard, executrix.

Dan Winslow late of Paris, deceased; petition for determination of inheritance tax presented by Harriette M. Winslow, executrix.

Albert H. Jones late of Denmark, deceased; final account presented for allowance by Martha H. Jones, guardian. Witness, ADDISON E. HERRICK, Judge of said Court at Paris, this third Tuesday of September in the year of our Lord one thousand nine hundred and twenty.

ALBERT D. PARK, Register.

next Walker, Mrs. Kerstead, Calvin Cummings and Nora Tibbets were among the recent callers in town.

Mr. and Mrs. Tom Logan and family, also Ellsworth Wilbur, are occupying a camp and working for Marshall Hastings in this vicinity.

It's dollars
to doughnuts—

no man ever smoked a better
cigarette, at any price!

CAMELS quality, and their expert blend of choice Turkish and choice Domestic tobaccos hand you a cigarette that will satisfy every smoke desire you ever expressed. You will prefer this Camel blend to either kind smoked straight!

Camels mellow-mildness will certainly appeal to you. The "body" is all there, and that smoothness! It's a delight!

Go the limit with Camels! They will not tire your taste. And they leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

Just compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in identically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine paper-covered carton. We strongly recommend this action for the home or office supply or when you travel.

POEMS WORTH READING

LET'S PLAY
Let's dream, like the child in its play;
Let's change the things 'round us by saying
They're things that we wish them to be;
And if there is sadness or sorrow,
Let's dream till we charm it away;
Let's learn from the children and borrow
A saying from childhood—"Let's play."

Let's play that the world's full of beauty;
Let's play there are roses in bloom;
Let's play there is pleasure in duty
And light where we thought there was gloom;
Let's play that this heart with its sor-
row
Is hidden by joyous and glad;
Let's play that we'll find on to-morrow
The joys that we never have had.

Let's play we have done with repining;
Let's play that our longings are still;
Let's play that the sunlight is shining
To gladden the green slope of the hill;
Let's play there are birds blithely sing-
ing
These songs of delight to the air;
Let's play that the world's full of sing-
ing,
Let's play there is love everywhere.

THE WORLD
The world is such a pleasant place
For any child to be,
With pleasant things to sing about
And pleasant things to see,
And other little children near
And pleasant roads to go,
And many things a happening
Which only children know.

The world is full of apple-trees
And stony walls to climb,
And buttercups and meadow-sweet
And all the summer time,
And singing brooks where cowslips grow
And children wade and fish,
And blackberries as large and sweet
As any child may wish.

The world is full of giants bold
And princesses and elves,
When little children sit alone
And whisper to themselves,
The world is full of blocks and dolls
And toys for a rainy day,
And little children everywhere
Who always want to play.

The world is full of lullabies
And lullabies for little heads,
And mother dears to sit beside
The sleepy trundle beds,
And pretty dreams to run among
As far as you can see,
The world is such a happy place
For any child to be.

BONDS OF SCOTLAND
Across the wide ocean lies fair Britain
Land,
Who, to aid stricken Belgium, sent
Forth her brave hand,
Wales, England and Ireland all did send
Their part,
And Scotland's brave men
Did their best.

The brave Sir John Macdonald for aye has
died,
And to future years his name will be
remembered,
For the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best.

May each Scotch lad be true to
his land,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men.

The brave Sir John Macdonald for aye has
died,
And to future years his name will be
remembered,
For the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best.

May each Scotch lad be true to
his land,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men.

The brave Sir John Macdonald for aye has
died,
And to future years his name will be
remembered,
For the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best.

May each Scotch lad be true to
his land,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men,
And to his brave men.

The brave Sir John Macdonald for aye has
died,
And to future years his name will be
remembered,
For the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best,
And the brave Sir John Macdonald
Did his best.

MR. L. W. NEWCOMB THROUGH WITH HOSPITALS

Springfield, Mass.—In a letter sent to Dr. J. F. True & Co., Mr. L. W. Newcomb of 139 Cambridge St., writes: "I am writing to let you know how I am getting along. I have taken two large size bottles of your Dr. True's Elixir, and am feeling 100% better than before using. I will continue taking it for I do not have the pain that I had before, and my wife and every one I know tells me I am looking better. The deep circles are all gone from under my eyes. No more hospitals for me." Dr. True's Elixir, the Family Laxative and Worm Expeller has benefited thousands upon thousands of sufferers from constipation, nervousness, poor appetite, indigestion, insomnia and worms. Over 65 years a favorite because it is pleasant to take, works just right—no harmful drugs. Don't be without it. ad

Day and night they are dreaming of your banks so green.

The bravest Scotch patriot you have given today
Has truthfully shown us where danger holds away;

Yes, Clyde, 'tis your patriot awakened
And words of defiance at the serpent he hurled.

Yes, that venomous serpent which now haunts the earth
Will be forced to submission by men of true worth.

And the sons of Columbia, Britain and France
Are combining with Belgium, on him to advance.

Though the conflict is over yet the serpent remains;
He must be surrounded by iron and chains;

But the Hun will be conquered, his defeat cannot fail,
And the first of his foes are the sons of the Gael.

And as fair Columbia shall honor the Scot,
And his glorious service shall ne'er be forgot.

For when Freedom called him, he bravely came forth;
Oh! then shall we honor the sons of the North.

BAND
(Some old lines, but always interesting)
I observed a locomotive, in the railroad yard, one day;

It was waiting at the roundhouse, where the locomotives stay;
It was panting for the journey, it was roared and fully manned,

And it had a box the fireman was filling full of sand.

It appears that locomotives cannot always get a grip
On their slender iron pavements, 'cause the wheels are apt to slip;

So when they reach a slippery spot, their tactics they command,
And to get a grip upon the rail, they sprinkle it with sand.

It's about this way with travel along life's slippery track
If your load is rather heavy, and you're always sliding back;

If a common locomotive you completely understand,
You'll provide yourself in starting with a good supply of sand.

If a track is steep and hilly, and you have a heavy grade,
And if those who've gone before you have the rails quite slippery made,

If you've ever reached the summit of the upper tableland,
You'll find you'll have to do it with a liberal use of sand.

If you strike some frigid weather, and discover to your cost
That you're unable to slip upon a heavy coat of frost,

Then some prompt decided action will be called into demand,
And you'll slip 'way to the bottom of your boots' one sand.

You can get to any station that is on the railroad track,
If there's the least bit of sand in your pocket's strong machine.

And you'll reach a place called Finish at a rate of speed that's grand
If for all the slippery places you've a good supply of sand.

Have YOU it? grinding down at Bethel, where printing is right in Quality and Price.

KEEPING WELL MEANS A CONSTANT FIGHT AGAINST CATARRH

Many diseases may be avoided as a catarrhal condition. Coughs, colds, nasal catarrhs, stomach and bowel disorders are just a few of the very common ones due to catarrh.

Take Dr. Hartman's PE-RU-NA. It is a remedy which has a reputation for curing catarrh of the nose, throat and lungs.

SOUTH PARIS

Mr. and Mrs. L. J. Trask of North Paris were in town one day last week. Mr. and Mrs. John Muller of South Waterford are in town for a short stay. Dr. and Mrs. James G. Littlefield were in Boston several days last week. Mr. and Mrs. Hudson Knight were recent guests of Mr. and Mrs. John Elden in Oxford.

Mr. and Mrs. L. C. Button were recent guests at the home of Geo. Miller in Waterford.

Mr. and Mrs. Arthur E. Forbes were at their camp at Shag Pond over Saturday and Sunday.

Mrs. Rixpah Whitman and Mrs. Geo. B. Morton have been spending a few days in Portland.

Sheriff Harry Cole and Deputy Sheriff Ernest P. Shaw were in Rumford last week on business.

Mrs. Kate Knight has been spending a few days with her brother, William Green, in South Waterford.

Mrs. E. W. Dutton, who has been visiting relatives in this village, has returned to her home in East Bethel.

Miss Alice Knight, who has been visiting in Poland and Mechanic Falls, returned to South Paris, Friday.

Mrs. Rachel Stanley and Newton Stanley of South Portland have been guests at C. W. Bowker's for a few days.

Mrs. C. G. Miller and daughter, Miss Ruth Miller, arrived home from Philadelphia, Friday.

Mrs. A. H. Ruggles, who has been stopping for some time with her sister, Mrs. W. B. Raymond, has returned to her home in Rumford.

Mr. and Mrs. A. Judson Curtis of Portland, formerly of West Paris, were in town last week. Mr. Curtis represented the town of Paris in the legislature in 1889-90.

Ray N. Berry of Boston, National Field Scout Executive of the New England District of the Boy Scouts of America, was in town last week in the interests of the Boy Scout troops of Oxford County.

The Ladies' Circle of the Congregational church will serve a harvest supper in the vestry, to the church and parish Thursday night, Oct. 14, at 6 o'clock. The admission will be ten cents to help cover expenses.

Next Sunday will be observed as Rally Day by the Baptist Sunday School.

Rev. D. P. Faulkner visited his brother, J. C. Faulkner, in Turner one day last week.

The next regular meeting of Paris Grange will be Saturday, Oct. 16, at 1:30 P. M.

Mrs. John S. Blair spent last week with Mr. and Mrs. George A. Flint in Harrison.

Mr. and Mrs. Eugene Earnham of New Gloucester were in town one day last week.

Mr. and Mrs. Fred B. Wiggin of Portland were recent guests of Mr. and Mrs. Fred Wiggin.

Mr. and Mrs. G. W. Q. Perham of So. Woodstock were in the village one day last week.

The Philatheas will meet with Mrs. Maudie Dennison, Thursday, Oct. 14.

Mrs. Fred Wiggin has been spending a week with relatives in Lowell and Sweden.

Mrs. George D. Robertson and daughter, Miriam, were guests at A. J. Richer's in West Paris several days last week.

Mrs. Stella W. Hornham and Mrs. Both M. Graves were in Portland several days last week, attending the Maine Festival.

Rev. Chester Gore Miller was unable to preach last Sunday on Sunday, and there were no services Sunday.

In the absence of Rev. J. L. Wilson, the pulpit of the Baptist church was supplied Sunday in Professor Carroll of Bates College.

A large number from Hamlin Lodge, K. of P., attended the district convention at South Waterford, Thursday evening.

Hon. W. H. Eastman of East Haverhill was in South Paris, Friday.

The W. T. T. reception to teachers and parents will be held at the Baptist church, Friday, Oct. 22.

LOOKE'S MILLS

Stanley Bartlett left for Newbury Sunday where he will work for Leslie Davis. Mrs. Corlie Abbott is visiting relatives at Mechanic Falls.

Mr. and Mrs. King Bartlett and Miss Mary were guests of relatives at Leeds Sunday.

Mrs. Perry Lapham has been quite ill. Mr. and Mrs. M. A. Lapham were in Norway Saturday.

Owen Bennett's son is now ill with pneumonia.

Bella Chase of Auburn is visiting her sister, Mrs. Ralph King.

Mr. and Mrs. Harold King and Mrs. Anna King of Norway came Sunday to see Mrs. Fannie Goodwin.

NEWRY

The Newry is at work for Harlan Bartlett sawing pulp wood.

Earl Davis hurt his foot quite badly last Saturday by stepping on a nail.

Rob Enos and family were at North Paris last Sunday.

W. H. Reed and family left here last Monday for their home in New Jersey. The weather has been so beautiful, they go with regret.

The KITCHEN CABINET

This world that we're a-livin' in is mighty hard to beat. We get a thorn with every rose—But ain't the roses sweet?

What appeals to the eye generally appeals to the appetite.

WHOLE SOME GOOD THINGS.

While grapes are in season make this fine relish to eat with meats:

Grape Catsup.—Boil the grapes until tender, put through a colander to remove the seeds and skins. Allow one pint of cider vinegar to three pints of grape pulp. Place in a kettle with two pounds of sugar and a bag containing the following spices: Two teaspoonsful each of allspice, salt, cinnamon, cloves and white pepper. Boil until reduced to one-half the bulk, then bottle and seal.

Walnut Graham Bread.—Take one cupful of flour, two and one-half cupfuls of graham flour, one-half cupful of molasses, two cupfuls of sour milk, two well-beaten eggs, one teaspoonful of salt, two teaspoonfuls of soda and one cupful of chopped walnut meats. Mix and bake as usual.

Rice and Almond Cream.—Blanch one-half cupful of almonds and cut them in thin strips. Put into a double boiler with the almonds three cupfuls of milk, one-fourth of a cupful of sugar, one-half teaspoonful of salt and, when hot, one cupful of well-washed rice. Cook until the rice is tender. When ready to serve dip it out into sherbet cups with whipped cream on top and garnished with apple jelly.

Salmon Salad.—Flake a little left-over salmon, add to a clear lemon jelly made without sugar. Put a thin slice of lemon in the bottom of an individual mold and fill with seasoned flaked salmon. Serve unmolded on lettuce with mayonnaise dressing.

Nuts With Tomatoes.—Mix one cupful of nuts chopped (any variety preferred) with two cupfuls of bread crumbs. Moisten with cream, season with salt, pepper and grated nutmeg. Mix the whole thoroughly, then beat in the yolks of three eggs and the stiffly beaten white of one. Spread the bottom of a platter with this mixture and on it arrange whole tomatoes. Dot with bits of butter and bake in a moderate oven. Serve with a butter sauce.

Next Sunday will be observed as Rally Day by the Baptist Sunday School.

Rev. D. P. Faulkner visited his brother, J. C. Faulkner, in Turner one day last week.

The next regular meeting of Paris Grange will be Saturday, Oct. 16, at 1:30 P. M.

Mrs. John S. Blair spent last week with Mr. and Mrs. George A. Flint in Harrison.

Mr. and Mrs. Eugene Earnham of New Gloucester were in town one day last week.

Mr. and Mrs. Fred B. Wiggin of Portland were recent guests of Mr. and Mrs. Fred Wiggin.

Mr. and Mrs. G. W. Q. Perham of So. Woodstock were in the village one day last week.

The Philatheas will meet with Mrs. Maudie Dennison, Thursday, Oct. 14.

Mrs. Fred Wiggin has been spending a week with relatives in Lowell and Sweden.

Mrs. George D. Robertson and daughter, Miriam, were guests at A. J. Richer's in West Paris several days last week.

Mrs. Stella W. Hornham and Mrs. Both M. Graves were in Portland several days last week, attending the Maine Festival.

Rev. Chester Gore Miller was unable to preach last Sunday on Sunday, and there were no services Sunday.

In the absence of Rev. J. L. Wilson, the pulpit of the Baptist church was supplied Sunday in Professor Carroll of Bates College.

A large number from Hamlin Lodge, K. of P., attended the district convention at South Waterford, Thursday evening.

Hon. W. H. Eastman of East Haverhill was in South Paris, Friday.

The W. T. T. reception to teachers and parents will be held at the Baptist church, Friday, Oct. 22.

Comrades in the Autumn Modes

IT SEEMS there is always something new to be done with smocks and blouses, and now that there is a furor for embroidery on everything and a craze for ribbons, designers appear to have centered their thought on decorations for these necessary and attractive belongings. And, since nothing escapes the embroidery needle, it has occurred to modistes to bring hats and blouses, or smocks, into close relationship. We find them now made of the same materials and embroidered in the same patterns.

One of these smocks, with hat to match, is presented in the illustration given here. Either velours or satin might be used for it, or, if not much in the way of warmth-giving is required of it, crepe de chine will answer. But for cool weather velours is the best choice, and sleeves might be provided of this material. The smock is the straight slip-over pattern, with belt of the material set loosely about the waist. Neck and arm-eye are finished with buttonhole stitch, in heavy silk, but the bottom of the smock is embellished with a handsome border in solid embroidery. Both the button-hole stitch and a motif from the border appear on the hat drapery. No seamstress will find it difficult to make a smock of this simple character, and she can at least prepare the material to be draped on a hat shape, leaving it to a professional milliner to place it to the best advantage.

The prettiest of the new ribbon trimmed smocks and blouses are made of taffeta and trimmed with plaid, striped or figured ribbons, plaids and stripes having the preference. They are suited to tailored clothes and are worn with suits or tailored skirts, the ribbon appearing on hats of duvetyne, felt, beaver or of fabrics, in smart bows and bands. This smock and hat combination is quite a new departure that may give a good account of itself by the time midwinter comes in.

For Wear in the Afternoon

THIS story of afternoon frocks is told because they are so varied in character and in design. They range all the way from such unpretentious and simple affairs as those that bear each other company in the picture above, to elaborately embroidered and beaded models, handsome lace and velvet dresses and others, in the class of dinner gowns. But the simpler dresses are the first to be chosen and they are of the dependable kinds that fit in on many occasions.

The dress at the left of the picture is made of velours with satin bands applied to it in a very wide cross-stitch pattern. The satin bands are very neatly machine stitched to place and appear only on the skirt, the short coat is plain and is one of the few models displaying a ventee. It has rounded turned-back cuffs of satin in three-quarter length sleeves and a satin collar.

The always admired black satin afternoon dress appears in the frock at the right. It has an apron drapery that is long at the front but shortened to a dounce across the back, contrasting by this means to acknowledge its

The Major's Sacrifice

By HARRY ST. JOHNS

(Copyright.)

I noticed him directly we entered the room, and I saw that he noticed Loo. There he stood, tall and handsome, in the splendor of his medals and his uniform, excelling every other man in the room. The officers were giving a ball, but he was a stranger in the camp, and excited my curiosity at the outset.

I was staying with Loo Kingston; her father was a retired colonel, and Loo reigned mistress of his house.

It was only recently that her engagement to Major Whitaker had been announced, and I found the tale difficult to credit. He was a genial, kind-hearted man, but old enough to be her father, and somehow his pompous, autocratic ways seemed ill-fitted to one of Loo's shrinking temperament. True, he was rolling in money, but Loo was not mercenary, and the moment I saw her again her pale, changed face showed me she was giving her hand where her heart could never follow.

As I followed her into the bathroom I noticed the stranger's eyes fixed upon her with a curious, intent gaze.

"Do you know him, Loo?" I whispered.

But she only turned startled eyes upon me and raised her hand in warning. I had time for no further speech; the first extra had begun, and my partner claimed me, though I would fain have stayed and questioned Loo.

Presently she passed us on the stranger's arm and scraps of their conversation floated to my ear.

"You might have forgotten me."

"And yet," he said, "it was a long time ago you were a child. But you have the mark still, I see?" And his gaze rested on a little scar on the girl's white brow—the mark of a cut, almost, but not quite obliterated.

"Yes, I have it still. I think I shall carry it always."

"Six years!" he said softly. "It is a long time. But you were not Miss Kingston then—you were only Loo." "Shall we rest a little? I am tired." Her face was white, and there was a sorrowful appeal in the wistful, dark eyes.

I watched them disappear down a corridor decorated with greenery and fairy lamps, until it looked like a piece of some enchanted palace, then the final crash of the music broke my dreamings.

Surely I had been dreaming! Loo, quiet, houselike Loo, couldn't have such a romance in her life! This handsome soldier couldn't have cherished her image all that time? Six years! Why, she was not sixteen! That was when she had first become one of us at Mme. Ollendorf's; her father's regiment had been ordered abroad, and the child, who had hitherto been his companion, was placed in Madame's care during his absence. She was a child—it was not possible—

"This is ours, Miss Nan."

Major Whitaker stood before me, large, pompous and good-natured. As I placed my fingers on his arm—the major always liked to go "on parade" before he began his gyrations—I mentally compared the two men, and wondered again how Loo's engagement had come about.

"I see Brevet is back again," he remarked. "Clever fellow, and a rattling good soldier. Deserves all the honors he has got, 'pon my soul, he does!" "Yes?" I acquiesced, readily, seeing that he alluded to the stranger. "You know him, then?"

"Oh, yes he was at one time in my regiment. I know his people well. Now that he's home safe and sound I suppose he'll be taking a wife, but I doubt whether he'll fall in with the arrangements very readily!" The major chuckled.

"Arrangements?" I queried. "He is engaged?"

"His wife was chosen for him long ago," returned the major. "She was his mother's ward, but the lad suddenly developed a will of his own and announced his intention of choosing his own bride."

"It must have been six years ago, I should think—perhaps more," continued the major. "His mother was anxious for the engagement to be brought about, and there was a scene, I remember. The lad came to me afterwards."

"Look here, major," he said, hotly. "I'm not a boy, and I can choose my own wife. In fact—and he colored like a girl—I've chosen her already. I don't mind telling you I've seen the only girl I'll ever marry, and she isn't my mother's choice!"

"Right you are, my lad," said I. "Choose your girl and stick to her. Where did you meet her?"

"Then it came out that he hadn't even been introduced to her. He'd saved her from something—I'm sure I forgot what—he knew she was small and dark, and had a pair of honest eyes that had gone straight to his heart, but her name—well, he only knew her Christian name, and he didn't tell me that! But," concluded the major, triumphantly, "he's stuck to his rank, and he's in love with his dark-eyed mystery still. There's a twentieth-century romance for you! Let me get you some refreshment!"

I let him go in silence. I had listened to his story in breathless excitement. Of course, Loo was the heroine, and he had found his "dark-eyed mystery." I recalled the scraps of their conversation: "You have the mark still!" I remembered how that mark had excited our schoolgirl curiosity,

and Loo had been raised to the rank of heroine as she related how she had narrowly escaped a cruel death in the street and a handsome unknown had been her salvation. I pieced it all together, and felt as though I were a traitor to the kindly major to leave him in ignorance yet how could I tell him?

The supper room was crowded, and after much skillful maneuvering he piloted me to a distant window which opened onto a small balcony. As we gained this desirable and, as we believed, deserted haven the murmur of voices showed the balcony was occupied, and the next moment a man's words came through the open window.

"Impossible, Loo? Why? Because you do not know me?"

"No. Oh, say no more. I—I—" her voice ended in a sob.

"I have started you, dear. But if you know how I have searched for you, and now to find you here—"

"Don't! Don't!" she cried. "I may not listen—I am engaged!"

Then there was silence, a silence I dared not break. The major stood as if turned to stone, and I, though I would have fain run away, was powerless to move. Then Loo's trembling voice continued:

"I am to marry Major Whitaker in a month. My father wishes it, and—Oh," she cried, passionately, "it was such a foolish dream. How would I ever tell—"

"Yes, it was a dream," he said, sadly. "And you are to marry Major Whitaker. Well—with a sharp breath—he has always been a good friend to me—('Thank God for that!') I heard the major mutter. 'I can only say, God bless you Loo, and—good-bye.'"

At this juncture the major seized my arm and bore me swiftly away. In the doorway he paused. His keen old eyes were flashing bright.

"Didn't I tell you he was a fine lad?" he muttered. "I want a word with him. And you, if you are her friend, go to her." As I turned to obey, Captain Brevet strode quickly down the room. The major touched his arm.

"Well, my lad," he said, "you've found her, eh? May I know her name now?"

The younger man faced him squarely, with misery in his eyes.

"Yes," he said, "you may know her name, major. The girl I have been dreaming of, the girl I love, is your promised wife."

"And she—Loo—loves you?"

"Heaven help us all," he groaned.

"I believe she does."

"Then," the major said, "go back to her, lad, and tell her—tell her that I give her her freedom, and I'm proud of you both. No, not a word! I told you long ago to choose your girl, and—"

The major pushed him away and turned to me.

"The room is clearer now," he said, prosaically, "what will you have, Miss Nan?"

"Anything," I gasped. "Major, you are a hero!"

But he laughed at my enthusiasm, and proceeded to eat his supper.

"GREATER THAN ALL THINGS"

Sympathy Has Well Been Called the Stability of Man's Fellowship With Man.

"Sympathy should not be confused with kindness, a state or quality of being kind or humane; for such manifestation may be performed in a sense of duty rather than through real sympathy," writes Dr. J. G. Bateson of Scranton, Pa., in the Medical Record (New York).

"The very depth of sympathy that is in some people makes them appear unsympathetic. The heart knoweth its own bitterness and a stranger meddles not therewith; so that many people shrink from meddling with sorrow. Someone has pointed out that if you wish to do good to a certain class of people you must get under their skins; they will then feel your sympathy. With the sorrowful and needy is found the 'open way' to heavens' gate."

"It is through suffering that we learn how to sympathize. Therefore it is not becoming to keep our alabaster boxes sealed until our friends are dead. Nor is it very helpful to offer conventional consolations, conventional verses out of the Bible and conventional prayers to those who are torn with intolerable suffering. To Job's comforters, Job's question is suitable, 'How long will ye vex my soul and break me in pieces with words?'"

"Sympathy is the active principle of the soul; it makes for the stability of man's fellowship with man; it is the foundation of the Christian religion; and in its simple, God-given fullness equips those who recognize its possession for all the capacities of a complete and beautiful life."

"Mirandy Says."

The female intellect is a curious thing, says Dorothy Dix in Good Housekeeping. Her famous character, "Mirandy," says about it:

"Ain't hit funny dat when women wants to have a real, sho' enuf good time dey des sets down an' narrates 'bout deir troubles? You'd think dat when anything happened to anybody dat was bad enuf for 'em to cry 'bout dat dey'd sorter draw de veil of silence over hit, but dat ain't de way dat de female intellek wuks."

"Hit laks to perrade hits griefs in public, an' dere ain't nothin' dat a woman really enjoys lak havin' a secret sorrow dat she can tell to anybody dat'll listen. An' when she gits good an' started on tellin' her troubles, she des throw de throttle wide open an' lets her tongue go, no matter ef she is castin' asparagus on de characters of her own flesh an' blood."

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

BOY SCOUTS' LONGEST HIKE

The five luckiest Boy Scouts of America that ever shook the dust of Greater New York and hit the dusty trails of the Far West are now visiting all of the great national parks as guests of the Far Western Travelers' association. They were chosen by contest, one from each of the five boroughs of Greater New York, to represent the scout councils of those boroughs.

They are: John Prest, Brooklyn council. He is seventeen years old and an Eagle scout with 24 merit badges for special achievements in scouting.

Cyril McDermott, Manhattan council. He is sixteen years old and is an Eagle scout with 26 merit badges.

Herbert Jacob, Queens council. He is twelve years old and is the youngest First Class scout in the borough.

Walter Perry, Richmond council. He is fifteen years old and a Second Class scout.

John Breitleser, Bronx council. He is fourteen years old and a First Class scout.

None of these boys ever before traveled any considerable distance from New York, and the experiences they have had on this trip are all new and wonderful to them.

The Far Western Travelers' association has been active for years in the "See America First" movement. Its president, John H. Patton, in seeking concrete ways to show faith by works, followed the suggestion of Huston Thompson, federal trade commissioner, to send city boys to the national parks. Naturally they were to be boy scouts, and from the biggest city. But President Patton says: "The Far Western Travelers' association claims

Mrs. John J. McDermott Bidding Good-bye to Her Son, Cyril, Who is One of the New York Boy Scouts Who Won Trips to National Parks.

no monopoly of this plan and hopes other organizations will follow our lead until thousands of boys from many cities will each year be given opportunity to get the spirit of bigness of our country as are these five scouts from the East. We believe this to be practical Americanization."

The parks being visited by the five New York boy scouts are: Rocky Mountain National park; the Grand Canyon, Yosemite Valley National park, Crater Lake, Mt. Rainier, Glacier and Yellowstone National parks. They started from New York July 7 and are scheduled to return September 4.

BRAVE BUT MODEST SCOUT.

Star Scout Harold Strohmeier of Troop No. 3, Kansas City, has been cited for bravery by the city council for his courageous fight with four bandits who recently attempted to hold up the bank where Strohmeier works. His deed received considerable publicity at the time of the attempted robbery, but the fact that he was a boy scout did not come out until later, when, through efforts of members of the local scout council, the city council passed a resolution commending him for his bravery and authorizing the mayor to present him with a gold medal.

MANSION FOR BOY SCOUTS.

The beautiful mansion and spacious grounds of Ambassador David H. Francis, in St. Louis, Mo., have been leased for ten years at a nominal sum to the St. Louis council of boy scouts, the national junior chamber of commerce, and the local council of the Junior chamber. The residence, which was built 25 years ago, is the headquarters of the three organizations. During the war the spacious grounds were given over to the war camp community service to entertain soldiers.

WEST PARIS

Mrs. F. E. Wheeler was hostess at a very pleasant dinner party at Camp Jolyville, Sunday, in honor of the birthday of Mrs. Wallace E. Webber of Lewiston, Dr. Wheeler and Mrs. Edwin Mann, all of the birthdays occurring on nearly the same date. Those present were: Dr. and Mrs. Webber and daughter, Lydia and Dorothy, Dr. and Mrs. Wheeler and daughter, Dorothy, Mr. and Mrs. Edwin J. Mann.

P. C. Mayhew, Mr. and Mrs. Bert Day, Beatrice Davis and Myrtle Robinson enjoyed a motor trip to Gorham, Sunday.

Several cars, well filled with passengers went around the mountains Sunday, among whom were P. R. Penley and family, G. L. Briggs and G. R. Briggs and family, Eugene Haines, wife and son, Mrs. P. C. Mayhew, Edwin Jackson and family.

George Jackson, Mr. and Mrs. C. H. Bates, P. P. McKenney and Miss Mabel Bleker motored to Screw Auger Falls and Erol, returning by Berlin and Gorham, Sunday.

A number of autos visited Axlacross Ham, Sunday, and among whom were Mr. and Mrs. Frank Mayhew, Mr. and Mrs. M. S. Huber, Mr. and Mrs. Parker, Mr. and Mrs. Harry Jacobs, Leon Hadley, Mr. Combs, Lewis Proctor and others.

Mr. and Mrs. Richard Marston are moving their household goods to Bethel.

Arthur T. Flavin exhibited his very instructive and interesting collection of foreign articles Friday evening at Centennial Hall for the benefit of the senior class of West Paris High School. A social followed and ice cream was on sale.

Mrs. Geo. D. Robertson and daughters, Miriam, of South Paris were guests several days last week at A. J. Bleker's.

Miss Alice Penley is visiting her sister, Mrs. Harold Dunham, of Brattleboro, Vt.

The freshman class of West Paris High School was given a reception at Centennial Hall, Wednesday evening. A social followed and ice cream was sold.

Rev. and Mrs. H. A. Markley, Mr. and Mrs. P. L. Wyman and Mrs. Rupert Berry attended Pomona Grange at East Hallow, Tuesday.

Mrs. Ellen Willis is visiting her daughter, Mrs. Morton Clark, at Duckfield.

George Duck had the misfortune to fracture three ribs when hauling wood with a spirited horse Thursday evening.

The Good Will Society of the Universalist church and the Willing Workers of South Woodstock were pleasantly entertained at the home of Mr. and Mrs. P. L. Wyman of Pleasant Valley Fruit Farm, Wednesday afternoon. There was a large number present and everybody had a good time. Refreshments were served.

Mr. and Mrs. Leslie Bates are soon to break up housekeeping and Mrs. Bates and little son will go to E. B. Davis' at Woodstock for the present.

OILEAD

Mr. and Mrs. Henry Springer have returned to their home in Portland, after spending two weeks at Marr's cottage.

Howard Bennett of Norway Lake spent the week end with his parents, Mr. and Mrs. Nathan Bennett.

Several people of this vicinity attended the dance at West Bethel last Friday evening.

Mrs. John Richardson and son, Carl, and Mrs. Florence Bryant went to Hebron last Tuesday to attend Pomona Grange. They made the trip by auto.

Mrs. Emma Atkinson and Bertha McRimmon of Bethel, N. H., were in town last Saturday.

A. A. Reed was in Bethel, N. H., one day last week.

Arthur Wrenn and Arthur Beale of Mechanic Falls are spending several weeks here on a hunting trip.

Ethel Collins of Berlin, N. H., spent the week end with relatives in town. Fred and Harold Moore of Norway were recent guests of their father, H. A. Moore.

Mrs. John Lary and Mildred Heath of Bethel were week end guests at A. T. Heath's.

Mrs. Wanda Hyman went to Lewiston one day last week.

Master Wellington of Berlin, N. H., was a recent visitor in town.

SOUTH ALBANY

Ray Wardwell and Leon Kimball are breaking grain for the farmers in this locality.

Carl Kimball is working for Harry Lewis.

Ray Wardwell has purchased a plow and a mowing machine.

Nearly everyone is being visited by a cold.

Mrs. David Hiram is preaching at Albany and Mr. Hiram was called home.

Herman Lewis and family have returned to Norway.

The next dance at Hunt's corner will be held Oct. 23.

John McAllister is picking his crops. No far so market can be found.

H. I. Dean has moved his family to Albany from Lewiston.

Have your stationery printed at the Citizen office. Prices are satisfactory.

NEW ENGLAND CROP REPORT

Potatoes: Hot weather and rain in late September caused some rot in potatoes in Aroostook, New Hampshire and Vermont; but frosts and cooler weather following seem likely to check the rot. Quality, aside from rot, generally good. Aroostook average yield promises around 205 bushels, with total production 18,540,000. Maine forecast 23,128,000; last month, 23,346,000; 1919, 24,480,000; 5 year average, 23,309,000. New England, 37,184,000; last month, 37,176,000; 1919, 35,080,000; 5 year average, 34,778,000. Gain over last year and 5 year average, about 0 per cent. Total for New York, Pennsylvania, Michigan, Wisconsin, Minnesota, 156,163,000; last month, 155,377,000; 1919, 147,955,000; 5 year average, 136,095,000. Gain over 1920, 5.5 per cent; over average, 14.7 per cent. United States: 414,986,000; last month, 412,933,000; last year, 357,901,000; 5 year average, 371,706,000. Gain over 1919 15.9 per cent; over average, 11.6 per cent.

Commercial Apples: So far as known no marked change occurred in New England apples in September, except that heavy winds blew many in sections, especially in Connecticut. Last month New England's commercial apples were estimated at 1,238,000 barrels, against 1,469,000 last year and 881,000 in 1918. Lack of adequate information makes impracticable any later estimate. The prospects for apples improved during September in New York, Pennsylvania, Virginia, W. Virginia and Idaho and the United States.

Massachusetts Cranberries: Reported as turning out somewhat less than the first estimate of 300,000 barrels, against 366,000 last year, and 10 year average, 290,000. Grapes a good crop generally, while pears are about average except in Maine, and light there.

Feed Crops: Corn in Maine, New Hampshire and Vermont is equal to the good crop of last year, and much above average; elsewhere—about average. Oats

in Rhode Island and Connecticut are about average, but elsewhere—nearly full, normal yields. Fall pastures are fair to good generally, though not so good as last year in Southern areas.

Garden Crops: These, with some exceptions, have turned out quite well. Field beans rusted somewhat, but yields are generally good.

Tobacco: Condition of the crop in Massachusetts is put at 95 per cent normal—in Connecticut, 89 per cent. Forecast for the United States is 1,478,788,000 pounds; 1919, 1,389,450,000; 5 year average, 1,258,864,000. The crop has sold well in New England. Cured well.

of the tract for free distribution, and a film company and a railroad passing through this region have both taken motion pictures of the scenic features of this recreation area. The latter concern's pictures are to be used in advertising the forest in the Middle West. The attractions of San Isabel National Forest are thus being made known to thousands of people.

FIGHT INSECTS NOW WITH PLOW Fall plowing is the most universally effective way of controlling the insect pests that annually cause great losses to the grain farmer. It is much easier and cheaper, says the Bureau of Entomology, United States Department of Agriculture, to prevent an insect outbreak in this manner than it is to stamp out the infestation once it is fully developed. The Hessian fly, so destructive to wheat, is one of the insects that can hardly be eradicated once it is established in the crop. Fall plowing is recommended because it breaks up the soil and destroys the grubs and pupae of many insects by exposing them to the sun and air.

Farmer's Bulletin 835, prepared by the Bureau of Entomology, tells how to control the most common and dangerous of the grain farmer's insect enemies. It gives briefly the life histories of the Hessian fly, army worm, cutworms, grasshoppers, white grubs, billbugs, corn-root aphids, and wireworms, with authoritative data describing the characteristics of each pest and the best practical remedies for control. The bureau advises the grain farmer to plow in the fall, if possible; to keep a supply of insecticides and a spraying outfit on hand; to watch the crops carefully for an outbreak, and to report all outbreaks to the county farm adviser, or direct to the Bureau of Entomology, United States Department of Agriculture.

ADVERTISED GOODS ARE THE KIND OF GOODS TO BUY

HELP MAKE NATIONAL FOREST KNOWN An example of effective cooperation between Government authorities and private interests in making the recreational facilities of the national forests available to the general public is found in the case of the San Isabel National Forest in Colorado, the attractions of which have been popularized through the concerted efforts of various organizations. What has been accomplished suggests that other communities near national forests could profitably undertake similar work. The total amount of money expended and to be expended this year in making this forest accessible to the public is \$167,000, of which the Forest Service, United States Department of Agriculture, contributes \$30,000 for roads, while the rest is supplied by various cooperating interests. The San Isabel Recreation Association has promised \$10,000 for the cooperative fund, if that much is needed. The Spanish Peaks Mountain Playground Association voted to raise \$18,000 for recreation improvements within the forest. The town of La Veta has tendered the Government a deed of conveyance to a section of land purchased by the town for a park, in order that it may be fitted into the general scheme for the development of the forest. A large tire concern is preparing a special road map

of the tract for free distribution, and a film company and a railroad passing through this region have both taken motion pictures of the scenic features of this recreation area.
